From Vergil to Wiglaf

Richard North

The Origins Of Beowulf

Sam Newton

The Origins Of Beowulf:

The Origins of Beowulf Sam Newton, 1994 A detailed and passionate argument suggesting that Beowulf originated in the pre Viking kingdom of 8th century East Anglia Where did Beowulf unique and thrilling example of an Old English epic poem come from In whose hall did the poem s maker first tell the tale The poem exists now in just one manuscript but careful study of the literary and historical associations reveals striking details which lead Dr Newton to claim as he pieces together the various clues a specific origin for the poem Dr Newton suggests that references in Beowulf to the heroes whose names are listed in Anglo Saxon royal genealogies indicate that such Northern dynastic concerns are most likely to have been fostered in the kingdom of East Anglia He supports his thesis with evidence drawn from East Anglian archaeology hagiography and folklore His argument detailed and passionate offers the exciting possibility that he has discovered the lost origins of the poem in the pre Viking kingdom of 8th century East Anglia SAMNEWTON was awarded his Ph D for work on Beowulf *The Origins of Beowulf* Richard North, 2007-02-08 This book suggests that the Old English epic Beowulf was composed in the winter of 826-7 as a requiem for King Beornwulf of Mercia on behalf of Wiglaf the ealdorman who succeeded him The place of composition is given as the minster of Breedon on the Hill in Leicestershire now Derbyshire and the poet is named as the abbot Eanmund As well as pinpointing the poem s place and date of composition Richard North raises some old questions relating to the poet s influences from Vergil and from living Danes Norse analogues are discussed in order to identify how the poet changed his heroic sources while four episodes from Beowulf are shown to be reworked from passages in Vergil s Aeneid One chapter assesses how the poem s Latin sources might correspond with what is known of Breedon s now lost library while another seeks to explain Danish mythology in Beowulf by arguing that Breedon hosted a meeting with Danish Vikings in 809 This fascinating and challenging new study combines careful detective work with meticulous literary analysis to form a case that no future investigation will be able to ignore **The origins of Beowulf and the pre-Viking kingdom of East Anglia** Sam Newton, 2004 **The Origins of Beowulf and the Pre-Viking Kingdom of East Anglia** Sam Newton, 1993 A thoroughly plausible scenario for the poet s interest in affairs long ago and far away for the poem s odd contradictory but connected relationship with later Scandinavian story its chilling air of utter contextual security in whatever was its own TIMES LITERARY SUPPLEMENT TOM SHIPPEY Where did Beowulf unique and thrilling example of an Old English epic poem come from In whose hall did the poem s maker first tell the tale The poem exists now in just one manuscript probably itself a copy but a long and careful study of the literary and historical associations reveals striking details which lead Dr Newton to claim as he pieces together the various clues a specific origin for the poem The fortunes of three early 6th century Northern dynasties feature prominently in Beowulf Dr Newton suggests that references in the poem to the heroes whose names are listed in Anglo Saxon royal genealogies indicate that such Northern dynastic concerns are most likely to have been fostered in the kingdom of East Anglia He supports his thesis with evidence drawn from East

Anglian archaeology hagiography and folklore His argument detailed and passionate offers the exciting possibility that he has discovered the lost origins of the poem in the pre Viking kingdom of 8th century East Anglia SAM NEWTON graduated with a first in English literature from the University of East Anglia Norwich where he was later awarded his Ph D for work on Beowulf East Anglia Where did Beowulf unique and thrilling example of an Old English epic poem come from Sam Newton who lives within serious walking distance of Sutton Hoo considers the origins of Anglo Saxon England s great epic poem to have been in East Anglia he supports his thesis with and supports his thesis with evidence from East Anglian archaeology hagiography and folklore bringing life to a vanished age with his sympathetic interpretation of the few records that have survived *The Waning Sword: Conversion Imagery and Celestial Myth in 'Beowulf'* Edward Pettit, 2020-01-14 The image of a giant sword melting stands at the structural and thematic heart of the Old English heroic poem Beowulf This meticulously researched book investigates the nature and significance of this golden hilted weapon and its likely relatives within Beowulf and beyond drawing on the fields of Old English and Old Norse language and literature liturgy archaeology astronomy folklore and comparative mythology In Part I Pettit explores the complex of connotations surrounding this image from icicles to candles and crosses by examining a range of medieval sources and argues that the giant sword may function as a visual motif in which pre Christian Germanic concepts and prominent Christian symbols coalesce In Part II Pettit investigates the broader Germanic background to this image especially in relation to the god Ing Yngvi Freyr and explores the capacity of myths to recur and endure across time Drawing on an eclectic range of narrative and linguistic evidence from Northern European texts and on archaeological discoveries Pettit suggests that the image of the giant sword and the characters and events associated with it may reflect an elemental struggle between the sun and the moon articulated through an underlying myth about the theft and repossession of sunlight *The Waning Sword Conversion Imagery and Celestial Myth in Beowulf* is a welcome contribution to the overlapping fields of Beowulf scholarship Old Norse Icelandic literature and Germanic philology Not only does it present a wealth of new readings that shed light on the craft of the Beowulf poet and inform our understanding of the poem s major episodes and themes it further highlights the merits of adopting an interdisciplinary approach alongside a comparative vantage point As such *The Waning Sword* will be compelling reading for Beowulf scholars and for a wider audience of medievalists *The Origins of Suffolk* Peter M. Warner, 1996 This book gives details of recent excavations at sites of international significance such as Sutton Hoo West Stow and Brandon It covers the history and archaeology of Suffolk from the time of the first farmers to the coming of the Normans **Anglo-Saxon Culture and the Modern Imagination** David Clark, Nicholas Perkins, 2010 The Anglo Saxon world continues to be a source of fascination in modern culture Its manifestations in a variety of media are here examined *The Origin Legends of Early Medieval Britain and Ireland* Lindy Brady, 2022-08-04 This holistic study demonstrates the interconnected nature of early medieval origin legends and traces their growth over time **The Origins of Democracy in Tribes, City-States and Nation-States**

Ronald M. Glassman, 2017-06-19 This four part work describes and analyses democracy and despotism in tribes city states and nation states The theoretical framework used in this work combines Weberian Aristotelian evolutionary anthropological and feminist theories in a comparative historical context The dual nature of humans as both an animal and a consciously aware being underpins the analysis presented Part One covers tribes It uses anthropological literature to describe the campfire democracy of the African Bushmen the Pygmies and other band societies Its main focus is on the tribal democracy of the Cheyenne Iroquois Huron and other tribes and it pays special attention to the role of women in tribal democracies Part Two describes the city states of Mesopotamia Syria and Canaan Phoenicia and includes a section on the theocracy of the Jews This part focuses on the transition from tribal democracy to city state democracy in the ancient Middle East from the Sumerian city states to the Phoenician Part Three focuses on the origins of democracy and covers Greece Mycenaean Dorian and the Golden Age It presents a detailed description of the tribal democracy of Archaic Greece emphasizing the causal effect of the hoplite phalanx military formation in egalitarianizing Greek tribal society Next it analyses the transition from tribal to city state democracy with the new commercial classes engendering the oligarchic and democratic conflicts described by Plato and Aristotle Part Four describes the Norse tribes as they contacted Rome the rise of kingships the renaissance of the city states and the parliamentary monarchies of the emerging nation states It provides details of the rise of commercial city states in Renaissance Italy Hanseatic Germany and the Netherlands [A Literary History of the English People](#) Jean Jules Jusserand, 1895
