Chemistry for Sustainable Technologies 2nd Edition Neil Winterton, 2021-02-04 Following the success of the first edition this fully updated and revised book continues to provide an interdisciplinary introduction to sustainability issues in the context of chemistry and chemical technology Its prime objective is to equip young chemists and others to more fully to appreciate defend and promote the role that chemistry and its practitioners play in moving towards a society better able to control manage and ameliorate its impact on the ecosphere To do this it is necessary to set the ideas concepts achievements and challenges of chemistry and its application in the context of its environmental impact past present and future and of the changes needed to bring about a more sustainable yet equitable world Progress since 2010 is reflected by the inclusion of the latest research and thinking selected and discussed to put the advances concisely in a much wider setting historic scientific technological intellectual and societal The treatment also examines the complexities and additional challenges arising from public and media attitudes to science and technology and associated controversies and from the difficulties in reconciling environmental protection and global development While the book stresses the central importance of rigour in the collection and treatment of evidence and reason in decision making to ensure that it meets the needs of an extensive community of students it is broad in scope rather than deep It is therefore appropriate for a wide audience including all practising scientists and technologists Extracts from reviews of the first edition The book forms the basis for a superb training course on sustainability from a chemist's viewpoint and a wonderful introduction to the subject for undergraduates and postgraduates this unique book is highly recommended reading for all chemists Trevor Laird Org Process Res Dev 2013 17 7 991 I would even go so far as to recommend this to any serious graduate or undergraduate scientist as a must read David Harwood Reviews A Guide to Publications in the Physical Sciences 2011 12 1 9 [Influence of Marketing on Tobacco Consumption Behavior in Rural and Urban Areas of the Southwestern Region of Nigeria](#) Oluwole O. Iyiola, 2008-10-02 The tobacco industry has always shown much interest in marketing their line of products and have been very successful in portraying smoking as a socially acceptable behavior to billions of people throughout the world Studies have shown in developed nations that tobacco marketing leads to the onset of smoking among adolescents in Nigeria no such study has been done The purpose of this research is to assess the potential influence of tobacco marketing on tobacco consumption among rural and urban residents in the southwestern region of Nigeria The survey was designed by the researcher thirty six items self administered by paper instrument using a cross sectional design were distributed to six hundred people in southwestern Nigeria The study involved 436 males 72 7% and 164 females 27 3% Of these 336 came from rural areas and 264 came from urban areas respectively Some 337 respondents 56 2% indicated that they were influenced by tobacco marketing to smoke while 263 43 8% indicated that they were not influenced The chi square statistic was used to test the null hypotheses The result shows a positive significant relationship that supports the notion that tobacco marketing has a

positive influence on tobacco consumption in the study areas This study also revealed that more males in the urban area are being influenced by tobacco marketing to smoke

The Value of the Moon Paul D. Spudis, 2016-04-26 While the Moon was once thought to hold the key to space exploration in recent decades the U S has largely turned its sights toward Mars and other celestial bodies instead In *The Value of the Moon* lunar scientist Paul Spudis argues that the U S can and should return to the moon in order to remain a world leader in space utilization and development and a participant in and beneficiary of a new lunar economy Spudis explores three reasons for returning to the Moon it is close it is interesting and it is useful The proximity of the Moon not only allows for frequent launches but also control of any machinery we place there It is interesting because recorded deep on its surface and in its craters is the preserved history of the moon the sun and indeed the entire galaxy And finally the moon is useful because it is rich with materials and energy The

moon Spudis argues is a logical base for further space exploration and even a possible future home for us all Throughout his work Spudis incorporates details about man s fascination with the moon and its place in our shared history He also explores its religious cultural and scientific resonance and assesses its role in the future of spaceflight and our national security and prosperity
