Slightly Out Of Focus Modern Library War:

D-Day Jonathan Mayo, 2014-05-27 Told in a purely chronological style this fascinating account vividly details the authentic stories of regular people caught up in the historical events of D Day June 6 1944 was a truly historic day but it was also a day where ordinary people found themselves in extraordinary situations Lieutenant Norman Poole jumped from a bomber surrounded by two hundred decoy dummy parachutists French baker Pierre Cardron led British paratroopers to his local church where he knew two German soldiers were hiding in the confessional Southampton telegram boy Tom Hiatt delivered his first death message by midday At the sound of Allied aircraft Werner Kortenhaus of the twenty first Panzer Division ran to collect his still damp washing from a French laundrywoman And injured soldiers wept in their beds in a New York hospital knowing that their buddies lay dying on the Normandy beaches Drawing on memoirs diaries letters and oral accounts D Day is a purely chronological narrative concerned less with the military strategies and more with what people were thinking and doing as D Day unfolded minute by minute Moving seamlessly from various perspectives and stories D Day sets the reader in the midst of it all compelling us to relive this momentous day in world history

The Cruel Radiance

Susie Linfield, 2011-05-27 In *The Cruel Radiance* Susie Linfield challenges the idea that photographs of political violence exploit their subjects and pander to the voyeuristic tendencies of their viewers Instead she argues passionately that looking at such images and learning to see the people in them is an ethically and politically necessary act that connects us to our modern history of violence and probes the human capacity for cruelty Grappling with critics from Walter Benjamin and Bertolt Brecht to Susan Sontag and the postmoderns and analyzing photographs from such events as the Holocaust China's Cultural Revolution and recent terrorist acts Linfield explores the complex connection between photojournalism and the rise of human rights ideals In the book's concluding section she examines the indispensable work of Robert Capa James Nachtwey and Gilles Peress and asks how photography should respond to the increasingly nihilistic trajectory of modern warfare A bracing and unsettling book *The Cruel Radiance* convincingly demonstrates that if we hope to alleviate political violence we must first truly understand it and to do that we must begin to look

The Media Offensive

Alexander G. Lovelace, 2022-05-25 World War II was a media war President Franklin D Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley's concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media

attention and British respect General Mark Clark's hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction. Negative media pressure and the fear of V-1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944. British general Bernard Montgomery's remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies. Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion. By V-E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units. The Media Offensive offers a new way to understand military media relations during World War II. The press and public opinion shaped not only how the conflict was seen but also how it was fought. Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories. Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it. Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision making. Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of war correspondents, The Media Offensive takes the historiography of war reporting in a new direction. In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press.

The War Beat, Europe Steven Casey, 2017 A fast paced narrative of the hard driving American war correspondents who reported the war against Nazi Germany from the battlegrounds of North Africa Germany Italy and France and shaped the home front's perception of some of the most pivotal battles in American history
