AI In Everyday Life Global Trend:

System Innovation for a World in Transition Artde Donald Kin-Tak Lam, Stephen D Prior, Siu-Tsen Shen, Sheng-Joue Young, Liang-Wen Ji, 2023-12-27 *System Innovation for a World in Transition Applied System Innovation IX* includes the contributions presented at the IEEE 9th International Conference on Applied System Innovation ICASI 2023 Chiba Japan 21-25 April 2023. The conference received more than 600 submitted papers from 12 different countries whereby roughly one quarter of these papers was selected to present at ICASI 2023. The book aims to provide an integrated communication platform for researchers from a wide range of topics including information technology, communication science, applied mathematics, computer science, advanced material science, and engineering. Hopefully, it will enhance interdisciplinary collaborations between science and engineering technologists in the fields of academics and related industries.

Emerging Trends, Global Perspectives, and Systemic Transformation in AI Wang, Viktor, 2025-08-06 As AI continues to evolve, emerging trends are reshaping industries, societies, and educational systems. From intelligent tutoring systems and data-driven policy, AI influence is both expansive and profound. Viewing these developments through a global lens reveals diverse approaches to AI adoption shaped by cultural, economic, and political contexts. At the same time, the integration of AI calls for systemic transformation, challenging institutions to rethink structures, governance, and ethical frameworks. Understanding these intersecting dynamics is key to navigating the future of AI in a way that is inclusive, responsible, and sustainable. *Emerging Trends, Global Perspectives, and Systemic Transformation in AI* examines how emerging trends in AI are reshaping education systems around the world. It offers global perspectives on the transformative potential of AI to enhance learning equity and institutional change. Covering topics such as 3D design, formative assessment, and vocational education, this book is an excellent resource for educators, researchers, administrators, policy makers, instructional designers, academicians, and more.

Recent Trends in Artificial Intelligence Towards a Smart World Rajeev Arya, Subhash Chander Sharma, Ajit Kumar Verma, Brijesh Iyer, 2024-09-09 This book compiles artificial intelligence (AI) applications in new communication technologies such as the cognitive radio networks, internet of things (IoT), internet of drones (IoD), internet of vehicles (IoV), and autonomous underwater vehicles (AUV), which are expected to increase the amount of data traffic. Recognizing that AI is revolutionizing industries with its applications and helping us solve complex problems with ease, the book tackles a variety of industries and sectors such as agriculture, logistics, infrastructure, manufacturing, education, disaster management, transport, surveillance, and more. Contributions included in the book are useful for students, engineers, disciplines like telecommunication, mechanical, and computer science, etc., teachers, people studying and working for strategic, tactical, and operational management. It is also useful for data scientists and anyone else who wants to have an insight into the impact of artificial intelligence on various industries. Due to its focus on healthcare and agriculture, the horizon of the book is enhanced to include healthcare industry personnels and agriculture sector. Additionally, it provides guidance for

government personnel who are working towards system upgradation for managing dynamic traffic demands

AI in Everyday Life for Non-Tech People Khushabu Gupta, 2025-09-09 Unlock the power of artificial intelligence without any technical jargon or coding AI in Everyday Life for Non Tech People is your essential guide to harnessing AI tools and techniques for everyday tasks productivity and decision making Whether you re looking to save time at work streamline your daily routines or make better informed choices this practical book breaks down complex AI concepts into simple step by step strategies anyone can use Discover real life case studies actionable tips and accessible explanations on how AI can help automate repetitive tasks improve personal organization analyze information and increase overall productivity Designed with non technical readers in mind this no coding guide shows you how to leverage AI apps smart assistants and online tools to solve problems boost creativity and enhance your lifestyle Stay ahead in today s digital world by understanding how to use AI safely ethically and effectively no previous tech experience required Start making smarter decisions boost your productivity and save time every day with practical AI applications you can start using right now
