

Calibration

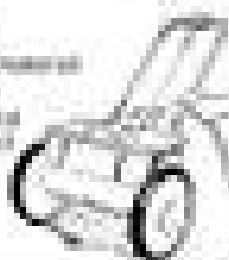

The AccuGreen[®] 3000 spreader was calibrated at the factory. However, check the calibration as follows:

1. Adjust the micrometer setting to 0.
2. Depress the trigger against the handle.
3. The front edge of the agitator should be flush with the calibration strip on the bottom of the trigger.
4. To adjust accurately, use a small screwdriver to turn the black calibration screw at the bottom end of the trigger until testing shows that coverage rate setting is correct.

Spend a few minutes on maintenance after each use

1. Never leave products in the spreader. Once release chemical lock into the package and seal the package tightly.
 2. After each use, wash thoroughly to remove all residue clinging to the spreader. Wash water may be required if used to remove stubborn residue. Allow the spreader to dry thoroughly in the sun.
 3. Store your spreader in a clean, dry place.
- WARNING:** They can leak and cause skin irritation.

Thank you

For purchasing a Scotts AccuGreen[®] 3000 spreader. The Scotts Company introduced the first true no-outble spreader in 1948 and has continued to offer superior quality products for more accurate application, a better-looking lawn, and a longer-lasting, more durable spreader. The new no-outble design and release mechanism, along with the built-in agitator, makes the AccuGreen[®] 3000 spreader the most accurate in the class. With its durable polypropylene hopper, the AccuGreen[®] 3000 spreader is guaranteed to give you good results — now and for many years to come.

Questions, Comments, Information
