Southern Theory Social Science And The Global Dynamics Of Knowledge:

Southern Theory Raewyn Connell, 2007-11-28 Shows how social theory about modern world from peripheral societies is equal in intellectual rigour and is often of greater political relevance to our changing world This title draws on anthropology history psychology philosophy economics and cultural studies with wide ranging implications for the social sciences in 21st century

Southern Theory Raewyn Connell, 2020 Southern Theory presents the case for a radical re thinking of social science and its relationships to knowledge power and democracy on a world scale Mainstream social science pictures the world as understood by the educated and affluent in Europe and North America From Weber and Keynes to Friedman and Foucault theorists from the global North dominate the imagination of social scientists and the reading lists of students all over the world For most of modern history the majority world has served social science only as a data mine Yet the global South does produce knowledge and understanding of society Through vivid accounts of critics and theorists Raewyn Connell shows how social theory from the world periphery has power and relevance for understanding our changing world from al Afghani at the dawn of modern social science to Raul Prebisch in industrialising Latin America Ali Shariati in revolutionary Iran Paulin Hountondji in post colonial Benin Veena Das and Ashis Nandy in contemporary India and many others With clarity and verve Southern Theory introduces readers to texts ideas and debates that have emerged from Australia s Indigenous people from Africa Latin America south and south west Asia It deals with modernisation gender race class cultural domination neoliberalism violence trade religion identity land and the structure of knowledge itself Southern Theory shows how this tremendous resource has been disregarded by mainstream social science It explores the challenges of doing theory in the periphery and considers the role Southern perspectives should have in a globally connected system of knowledge Southern Theory draws on sociology anthropology history psychology economics philosophy and cultural studies with wide ranging implications for social science in the 21st century

Southern Theory Raewyn Connell, 2011

Postcolonial Challenges in Education Roland Sintos Coloma, 2009 Coloma compiles 20 essays that trace the history of imperialism and colonialism as well as anti imperialism and decolonization noting that there is a lack of consideration of education in studies of these topics and vice versa Education scholars from North America the UK Australia and Qatar consider the operations and effects of colonialism during and after occupation and the way colonized individuals navigate and resist imperialism in schooling educational policy and cultural and knowledge production

Sociology in the Twenty-First Century Simon Susen, 2020-10-17 This book examines key trends debates and challenges in twenty first century sociology To this end it focuses on significant issues surrounding the nature of sociology What is sociology the history of sociology How has sociology evolved and the study of sociology How can or should we make sense of sociology These issues have been and will continue to be essential to the creation of conceptually informed methodologically rigorous and empirically substantiated research programmes in the discipline Over the past years however there have been numerous disputes and controversies concerning the future of sociology Particularly important in this respect are recent and ongoing discussions on the possibilities of developing new and arguably post classical forms of sociology The central assumption underlying most of these projects is the contention that a comprehensive analysis of the principal challenges faced by global society requires the construction of a sociology capable of accounting for the interconnectedness of social actors and social structures across time and space This book provides a cutting edge overview of crucial past present and possible future trends debates and challenges shaping the pursuit of sociological inquiry Simon Susen one of the most knowledgeable scholars in the contemporary social sciences examines the key challenges with which sociology is confronted today This book is a must read for professional sociologists as well as for those studying the subject Luc Boltanski cole des Hautes tudes en Sciences Sociales Paris France Simon Susen provides a balanced update on sociology s theoretical methodological and institutional resources as well as challenges in today s complicated local and global social worlds Fortunately he has innovative and practical recommendations for ensuring the cutting edge relevance of sociological thinking This book is an excellent choice for undergraduate and postgraduate students as well as for the general reader Sandra Harding University of California Los Angeles USA A comprehensive and judicious account of the intellectual and material state of sociology based on omnivorous reading and incisive analysis The writing is beautifully clear and the book is a major contribution to the self understanding of the discipline William Outhwaite Newcastle University UK

The Routledge Handbook on Cities of the Global South Susan Parnell, Sophie Oldfield, 2014-03-26 The renaissance in urban theory draws directly from a fresh focus on the neglected realities of cities beyond the west and embraces the global south as the epicentre of urbanism This Handbook engages the complex ways in which cities of the global south and the global north are rapidly shifting the imperative for multiple genealogies of knowledge production as well as a diversity of empirical entry points to understand contemporary urban dynamics The Handbook works towards a geographical realignment in urban studies bringing into conversation a wide array of cities across the global south the ordinary mega global and peripheral With interdisciplinary contributions from a range of leading international experts it profiles an emergent and geographically diverse body of work The contributions draw on conflicting and divergent debates to open up discussion on the meaning of

the city in or of the global south arguments that are fluid and increasingly contested geographically and conceptually It reflects on critical urbanism the macro and micro scale forces that shape cities including ideological demographic and technological shifts and constantly changing global and regional economic dynamics Working with southern reference points the chapters present themes in urban politics identity and environment in ways that re frame our thinking about cities The Handbook engages the twenty first century city through a southern urban lens to stimulate scholarly professional and activist engagements with the city *Handbook of Social Justice in the Global South* Nikhil Deb,Manjusha Nair,Glenn W.

Muschert,2025-03-12 This timely Handbook explores social justice in the Global South in an era of planetary crisis and shifting global dynamics Presenting the Global South as a space of belonging and resistance to the hegemony of global capitalism it identifies how to reimagine transformative futures for a just world *Cold War Social Science* Mark

Solovey,Christian Dayé,2021-05-13 This book explores how the social sciences became entangled with the global Cold War While duly recognizing the realities of nation states national power and national aspirations the studies gathered here open up new lines of transnational investigation Considering developments in a wide array of fields anthropology development studies economics education political science psychology science studies and sociology that involved the movement of people projects funding and ideas across diverse national contexts this volume pushes scholars to rethink certain fundamental points about how we should understand and thus how we should study Cold War social science itself **An Invitation to**

Non-Hegemonic World Sociology Eric Macé,2024-07-19 Although sociology is present as a discipline or as a social practice in most countries in the world its future as a not only Western social science has hardly been addressed before In this book a team of interdisciplinary scholars have been working together not so much to offer one single response to the question than to raise important issues at stake for the future of sociology Is it universal Can it be indigenous How is it possible and is it even desirable to write its history differently so as to know better about its early world diffusion and gradual Westernization Do we need to expand or change its canon This collection brings together essays that are all engaged in international discussions concerning the universality of sociology or more precisely the epistemological and theoretical conditions of this universality The postcolonial and decolonial critiques of the Eurocentrism of sociology are the basis for a reflection on how to continue to do sociology in a non hegemonic way That is sociological ways of describing reality including the history of sociology and its canon that are not limited by Western centrism or other nationalist or religious hegemonies
