Something's Wrong Lisa R. Church, 2019-11-18 I closed my eyes This couldn't be happening A seizure in front of my fourth graders at school I could scarcely hear my husband giving the nurse in the ER my latest list of symptoms fatigue memory loss balance issues staggering falling brain fog irritability and now seizures I tried to wipe the sweat off my forehead My hand couldn't find my face I was soaked in urine and needed to vomit I wanted this all to be over But it wasn't It was just the beginning For the next few months I would be evaluated by experts and whispered about by friends Hallucinations haunted me day and night I was scared and worried on days I wasn't catatonic I was complacent and even silly at other times The lady with early onset of dementia became my calling card I was expected to die I wanted to die The journey I took claimed many victims My family and friends were immersed in my fear and frailty The decision to put me in a nursing home was the trending talk But how can you treat what you don't know you have when all you do know is that something's wrong
