Making Audio/Video Connections

Your new TV includes various types of audio and video inputs. Use the outputs/inputs that are available on your components that provide the best audio/video performance. The HDMI input allows you to connect digital video and audio signals with a single cable.

- The connection diagrams shown below and on the reverse side are recommendations only; other possible solutions may exist. Connections that include an A/V receiver can often be simplified, so check your A/V receiver's instruction manual for additional details.
- See the "Cables Required" chart that appears with the diagram to determine which cables you will need. Depending on the components you plan to connect, you may need to purchase video cables.

Getting HD Programming

Contact your local cable or satellite TV provider for details on how to upgrade to your High-Definition (HD) programming. Additional equipment and subscription fees may apply.

- For information on availability of HD programming using an antenna (HDTV with integrated HD tuner required), visit www.antennasets.org (US only).
- For an interactive guide on cable requirements and how to connect audio and video devices, visit www.cableconnections.com (US only).

Running Initial Setup

- Press to turn on the TV.
The Initial Setup screen appears.
- Press to highlight the on-screen display language. Then press .
- Press to highlight "OK" then press .
- Press to highlight "OK" then press .

When Initial Setup is complete, the TV will display the total number of analog channels or the total number of digital channels found.

To run Auto Program again at a later time

Refer to the manual on "Initial Setup" and "Auto Program" sections.
