Aristophanes and His Tragic Muse Stephanie Nelson, 2016-02-15 Despite the many studies of Greek comedy and tragedy separately scholarship has generally neglected the relation of the two And yet the genres developed together were performed together and influenced each other to the extent of becoming polar opposites In Aristophanes and His Tragic Muse Stephanie Nelson considers this opposition through an analysis of how the genres developed by looking at the tragic and comic elements in satyr drama and by contrasting specific Aristophanes plays with tragedies on similar themes such as the individual the polis and the gods The study reveals that tragedy's focus on necessity and a quest for meaning complements a neglected but critical element in Athenian comedy its interest in freedom and the ambivalence of its incompatible visions of reality

The Emotions of the Ancient Greeks David Konstan, 2007-12-22 It is generally assumed that whatever else has changed about the human condition since the dawn of civilization basic human emotions love fear anger envy shame have remained constant David Konstan however argues that the emotions of the ancient Greeks were in some significant respects different from our own

and that recognizing these differences is important to understanding ancient Greek literature and culture With *The Emotions of the Ancient Greeks* Konstan reexamines the traditional assumption that the Greek terms designating the emotions correspond more or less to those of today Beneath the similarities there are striking discrepancies References to Greek anger or love or envy for example commonly neglect the fact that the Greeks themselves did not use these terms but rather words in their own language such as *orgē* and *philia* and *phthonos* which do not translate neatly into our modern emotional vocabulary Konstan argues that classical representations and analyses of the emotions correspond to a world of intense competition for status and focused on the attitudes motives and actions of others rather than on chance or natural events as the elicitors of emotion Konstan makes use of Greek emotional concepts to interpret various works of classical literature including epic drama history and oratory Moreover he illustrates how the Greeks conception of emotions has something to tell us about our own views whether about the nature of particular emotions or of the category of emotion itself
