The Capable Cruiser Expanded And Revised:

The Capable Cruiser Lin and Larry Pardey, 2010-06-08 Lin and Larry Pardey have now been cruising on board their own boats racing delivering and repairing other people's boats for more than 44 years After west to east and east to west circumnavigations and voyages to more than 75 countries they have a breadth of knowledge that few other boating authors possess Most of the voyaging has been done on an earn as you go budget that could be well within the reach of the majority of those whose dream is to set sail Their motto Go small go simple but go now The Pardeys strengths are neatly symbolized by the boats they have built Each one is romantically traditional with swooping sheerlines and is completely dependent on the wind And yet each boat carries the best strongest and most seamanlike gear Like their vessels the Pardeys writings are founded on a marriage of the spirit of romantic adventure and the practical up to date seamanship that keeps them and their boats safe This revised and expanded third edition of a cruising classic includes 10 completely new chapters with such advice as sixteen ways to encourage your lover partner to share your dream strategies for turning sudden engine failure into a minor incident choosing safety equipment repairing rigging at sea All of the original chapters have been updated to ensure that the information will be helpful for everyone who dreams of cruising whether now or soon The Capable Cruiser is a logical extension of the Pardeys *The Self Sufficient Sailor* with more emphasis on seamanship underway including careful analysis of extreme anchoring situations and solutions for mitigating them Underlying each and every chapter is the warmth and encouragement that spurred Herb McCormick former editor of *Cruising World* magazine to label Lin and Larry Pardey the enablers

Cruisers and their Derivatives Conrad Waters, 2024-05-30 A follow up to the author's highly regarded history of British Town class cruisers this book takes the same approach combining coverage of the development design details and career highlights of the original class as well as the Uganda Minotaur and Tiger designs that were derived from them Often called the Colony class they were an attempt to incorporate the characteristics of the preceding Town class within the reduced 8 000 ton limit agreed under the 1936 London Treaty In general layout they resembled the earlier class but adopted upright rather than raked funnels and masts The use of a flat transom stern conferred both hydrodynamic and internal space advantages Not surprisingly they turned out to be very cramped ships which struggled to accommodate all the wartime

additions of extra electronics and light AA guns as well as the increased crew needed to man them. Many of the later modifications to existing ships and alterations to the succeeding designs were attempts to alleviate these issues, most visibly the reduction of the main armament from four to three turrets. Nevertheless, they were available in significant numbers and gave sterling service across all theaters of the naval war. In this major study, Conrad Waters makes extensive use of archive material to provide a technical evaluation of the Fiji class design and its subsequent performance. He outlines the class's origins in the context of inter-war cruiser policy, explains the design and construction process, and describes the characteristics of the resulting ships and how these were adapted in the light of wartime developments. An overview of service focuses on major engagements, assessing the extent to which the class met its designers' expectations and detailing the consequences of action damage. Later chapters continue the story into the Cold War era, examining the various post-war modernization programs and concluding with the radical redesign of the Tiger class that produced the Royal Navy's last conventional cruisers. Heavily illustrated with contemporary photographs, original plans, and drawings by Dave Baker, John Jordan, and George Richardson, *British Fiji Class Cruisers* provides a definitive reference to one of the Royal Navy's most important Second World War warship designs. *MotorBoating*, 1970-02

The Cruise Ship Phenomenon in North America Brian J. Cudahy, 2001. Cudahy, an independent scholar with a PhD in philosophy and a passion for transportation, looks at the early days of the cruise ship industry and discusses contemporary cruise ship design, cruise markets, and the evolution of the burgeoning recreation-oriented business. Coverage also includes the challenges of managing cruise lines and regulations governing the industry. A detailed appendix presents an instant history of the major cruise line ships, including notes on specifications, builders, registry, and passenger capacity.
