**Assessing Children's Learning (Classic Edition)** Mary Jane Drummond,2011-10-21 Now featuring a brand new foreword by Sue Swaffield this classic text Assessing Children s Learning examines some of the vital questions that teachers and other educators ask themselves as they assess children s learning across the curriculum

*Children & the Law* Kerry O'Halloran,2022-12-30 Balancing a child s welfare interests and rights so as to ensure recognition and respect for his or her autonomous identity while facilitating family unity has become a major challenge for modern family law This book following on from The Principle of the Welfare of the Child A History examines contrasts and compares the response of England and Wales and Ireland to that challenge It does so by applying the same matrix of

indicators to explore in each country the distinction between welfare interests and rights and to trace changes in the balance between them By profiling the nations in accordance with the same indicators it reveals important jurisdictional differences in the extent to which welfare interests or rights determine how the law is currently applied to children The Young Mind Mike Shooter,Sue Bailey,2010-07-13 Sadly millions of children today are affected by mental health problems almost a doubling of the number of sufferers in just one generation Now in this timely new book mental health experts provide invaluable information and guidance for concerned parents teachers and young adults With chapters covering subjects such as child and adolescent development parenting skills problems at school emotional health and wellbeing The Young Mind also looks specifically at some of the most distressing problems facing young people today including anxiety and stress disorders drugs alcohol self harm and psycho sexual development Illustrated and written in a completely accessible style by some of the most distinguished and respected professionals in the field of child and adolescent psychiatry The Young Mind offers a guiding hand and insight into this most vital area of mental health The Claims of Parenting Stefan Ramaekers,Judith Suissa,2011-09-15 Many sociological historical and cultural stories can be and have already been told about why it is that parents in post industrial western societies face an often overwhelming array of advice on how to bring up their children At the same time there have been several philosophical treatments of the legal moral and political issues surrounding issues of procreation the rights of children and the duties of parents as well as some philosophical accounts of the shifts in our underlying conceptualization of childhood and adult child relationships While this book partly builds on the insights of this literature it is significantly different in that it offers a philosophically informed discussion of the actual practical experience of being a parent with its deliberations judgements and dilemmas In probing the ethical and conceptual questions suggested by the parent child relationship this unique volume demonstrates the irreducible philosophical richness of this relationship and thus provides an important counter balance to the overly empirical and largely psychological focus of a great deal of parenting literature Unlike other analytic work on the parent child relationship and the educational role of parents this work draws on first person accounts of the day to day experience of being a parent in order to explore the ethical and epistemological aspects of this experience In so doing it exposes the limitations of some of the languages within which contemporary parenting is conceptualized and discussed and opens up a space for thinking about childrearing and the parent child relationship beyond and other than in terms of the languages which dominate the ways in which we generally think about it today **Professionalism in Early Childhood Education and Care** Carmen Dalli,Mathias Urban,2013-09-13 The professionalism of the early childhood sector has gained prominence on the policy agendas of many countries National pedagogical frameworks or curricula and an upsurge of pathways to gaining or upgrading qualifications has led to a pervasive terminology of professionalism Yet despite the pervasiveness of this terminology the question of what professionalism means in early years contexts remains open to debate This book draws together the work of an international

group of scholars who have engaged with this question They ask How can professionalism be conceptualised in early childhood settings How might one act professionally in increasingly diverse and changing social and cultural contexts Do we have a common ground of understanding about these terms Are there key concepts that can be agreed upon Drawing on research and experience across a wide range of national contexts this book seeks an understanding of early childhood professionalism in local contexts that might throw light on the global implications of this term This book was published as a special issue in the European Early Childhood Education Research Journal **Children Today** ,1976 The Book of My Son Reuben David Cohen,2023-06-23 I wish I had not had to write this book because then my lovely son Reuben would still be alive says David Cohen He was adorable formidably intelligent a loving son a loving brother He died far too young He had the bad luck to have two grandparents who had addictive personalities His efforts to resist the lure of drugs failed And so did I The Book of My Son Reuben is a personal account of how psychologist David Cohen coped and did not cope with the death of his son Reuben Offering a unique perspective on the experience of parental loss it offers a personal and analytical exploration of sorrow and guilt and of what research tells us about trauma and grief Illustrated throughout with David Cohen s personal insight into how he continues to navigate his loss this honest book provides a deeper understanding of loss for parents who have experienced it as well as those who support them The book remembers the many parents who have lost children throughout history and chapters weave personal perspectives with the latest research It examines the experience of sudden deaths the failures of society in preventing children from dying the role of social media how the loss of a child impacts fathers siblings and relationships and the usefulness or otherwise of bereavement therapies A tribute to Reuben s life this sensitive volume is for those who have experienced loss and want to gain better understanding of their experience as well as psychologists psychotherapists and counsellors working with families
