Troubled Legacies Allan Hepburn,2007-01-01 Last wills and testaments create tensions between those who inherit and those who imagine that they should inherit As Victorian modern and contemporary novels amply demonstrate seldom is more energy expended than at the reading of a will Whether inheritances bring disappointment or jubilation they create a pattern for the telling of stories stories that involve the transmission of legacies cultural political and monetary from one generation to the next Troubled Legacies examines these narratives of inheritance in British and Irish fiction from 1800 to the present The essays in this collection set out to juxtapose legal and novelistic discourse This reading of literature against law produces intriguing and often provocative assertions about the specific relationship between novels and inheritance As the contributors argue novels reinforce property law an argument bolstered by the examples of women workers Jews and Irishmen dispossessed of their rights and unable to claim their cultural inheritances Troubled Legacies thoroughly examines the connection between narrative and claims to legal entitlement a topic that has not to date been comprehensively broached in literary studies

Betting on Ideas Reuven Brenner,1989-07-10 In this book Reuven Brenner argues that people bet on new ideas and are more willing to take risks when they have been outdone by their fellows on local national or international scales Such bets mean that people deviate from the beaten path and either gamble commit crimes or come up with new ideas in art business or politics and ideas concerning war and peace in particular By using evidence on gambling crime and creativity now and during the Industrial Revolution by examining innovations in English and French inheritance laws and the emergence of welfare legislation and by looking at what has happened before and after wars Brenner reaches the conclusion that hope and fear envy and vanity sentiments provoked when being leapfrogged make humans race
