The Butcher Of Amritsar Brigadier General Reginald Dyer:

The Butcher of Amritsar Nigel Collett, 2006-10-15 On 13 April 1919 General Reginald Dyer marched a squad of Indian soldiers into the Jallianwala Bagh in Amritsar and opened fire without warning on a crowd gathered to hear political speeches This is an account of the massacre set in the context of a biography of a man whose attitudes reflected many of the views common in the Raj

The Emergence of International Society in the 1920s Daniel Gorman, 2012-08-20 Chronicling the emergence of an international society in the 1920s Daniel Gorman describes how the shock of the First World War gave rise to a broad array of overlapping initiatives in international cooperation Though national rivalries continued to plague world politics ordinary citizens and state officials found common causes in politics religion culture and sport with peers beyond their borders The League of Nations the turn to a less centralized British Empire the beginning of an international ecumenical movement international sporting events and audacious plans for the abolition of war all signaled internationalism s growth State actors played an important role in these developments and were aided by international voluntary organizations church groups and international networks of academics athletes women pacifists and humanitarian activists These international networks became the forerunners of international NGOs and global governance

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the

formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

The Indian Army in the Two World Wars ,2011-10-14 There is no single volume which covers the Indian Army s experiences during the two World Wars And this is what the present edited volume attempts to do This collection of 17 essays analyze the army as an institution and also touch upon the cultural ethos of the army and related social issues Thus this edited volume is a cross between traditional military history study of campaigns tactics leadership and new military history impact of warfare on society and culture While some of the essays take a pan Indian perspective a few essays also focus on those regions within India like Punjab which were intimately related with the army A few contributors also turn the spotlight on the overseas theatres like Mesopotamia France and Burma where the Indian Army played a very important role Contributors are Alan Jeffreys Andrew Syk Daniel Marston David Kenyon Dennis Showalter Gajendra Singh Gavin Rand James Kitchen Nick Lloyd Nikolas Gardner Rajit K Mazumder Raymond Callahan Rob Johnson Ross Anderson Tarak Barkawi and Tim Moreman

Empire and Superempire Bernard Porter,2006-01-01 A timely and provocative comparison of the British and American empires are they alike or are they very different beasts The present American empire is often compared with the British one of yore not surprising in view of the fact that Afghanistan and Iraq were once British imperial stamping grounds too But how alike are the two empires really What are the connections between them And what can we learn from the comparison In this compellingly written book a leading historian of the British empire explores these questions in depth for the first time Bernard Porter finds that Britain and America had uncannily similar imperial histories before the present day but that now considerable differences exist He argues that post 2001 American imperialism is an imperialism of a different sort a super imperialism that no longer repeats British imperialism but now transcends it Porter s comparison illuminates British imperialism including Tony Blair s the American version of imperialism administered under George W Bush and the relation of imperialism to such phenomena as capitalism globalization free trade and international security His insights are often surprising and always original and thought provoking

Approach to Battle Alan Jeffreys,2017-01-24 The Indian Army was the largest volunteer army during the Second World War Indian Army divisions fought in the Middle East North Africa and Italy and went to make up the overwhelming majority of the troops in South East Asia Over two million personnel served in the Indian Army and India provided the base for supplies for the Middle Eastern and South East Asian theatres This monograph is a modern historical

interpretation of the Indian Army as a holistic organisation during the Second World War It will look at training in India charting how the Indian Army developed a more comprehensive training structure than any other Commonwealth country This was achieved through both the dissemination of doctrine and the professionalism of a small coterie of Indian Army officers who brought about a military culture within the Indian Army starting in the 1930s that came to fruition during the Second World War which informed the formal learning process Finally it will show that the Indian Army was reorganised after experiences of the First World War During the interwar period the army developed training and belief for both fighting on the North West Frontier and as an aid to civil power With the outbreak of the Second World War in addition to these roles the army had to expand and adapt to fighting modern professional armies in the difficult terrains of desert jungle and mountain warfare A clear development of doctrine and training can be seen with many pamphlets being produced by GHQ India that were in turn used to formulate training within formations and then used in divisional brigade and unit training instructions thus a clear line of process can be seen not only from GHQ India down to brigade and battalion level but also upwards from battalion and brigade level based on experience in battle that was absorbed into new training instructions Together with the added impetus for education in the army by 1945 the Indian Army had become a modern professional and national army

The Chinese May Fourth Generation and the Irish Literary Revival: Writers and Fighters Simone O'Malley-Sutton, 2023-10-06 This book examines how the early twentieth century Irish Renaissance Irish Literary Revival inspired the Chinese Renaissance the May Fourth generation of writers to make agentic choices and translingual exchanges It sheds a new light on May Fourth and on the Irish Renaissance by establishing that the Irish Literary Revival 1900 1922 provided an alternative decolonizing model of resistance for the Chinese Renaissance to that provided by the western imperial center The book also argues that Chinese May Fourth intellectuals translated Irish Revivalist plays by W B Yeats Lady Gregory Se n O Casey and Synge and that Chinese peasants performed these plays throughout China during the 1920s and 1930s as a form of anti imperial resistance Yet this literary exchange was not simply going one way since Yeats Lady Gregory Synge and O Casey were also influenced by Chinese developments in literature and politics Therefore this was a reciprocal encounter based on the circulation of Anti colonial ideals and mutual transformation

The Insecurity State Mark Condos, 2017-08-03 A provocative examination of how the British colonial experience in India was shaped by chronic unease anxiety and insecurity

Why I Supported the Emergency Khushwant Singh, 2009 In Indian context

Fugitive of Empire Joseph McQuade, 2023-10-19 In 1912 Rash Behari Bose made his dramatic entrance into India s anti colonial freedom movement when he orchestrated a bomb attack against the British Viceroy during a public procession in Delhi Forced to flee his homeland Bose settled in Japan becoming the most influential Indian in Tokyo and earning the affectionate title Sensei among Japanese youth military personnel and far right ultranationalists Throughout the 1920s and 1930s Bose remained a perpetual thorn in the side of the British Empire as he built and maintained a global network of anti colonialists

radicals smugglers and intellectuals After siding with Imperial Japan against his British adversaries during the Second World War Bose died in 1945 just two years before India gained its independence A complex controversial and often contradictory figure Bose has been described as a committed democrat an authoritarian an advocate of religious harmony a Hindu chauvinist an anti Communist a political pragmatist an idealist a Japanese collaborator an anti racist a cultural conservative a Pan Asianist an Indian nationalist and much more besides Drawing on extensive archival research in India Japan and the UK this refreshing new biography brings to life the largely forgotten story of one of twentieth century Asia s most daring revolutionaries
