The Caribbean Survival Struggle And Sovereignty:

The Caribbean Cathy Sunshine, 1985 For review see Viranjini Munasinghe in *Nieuwe West Indisch Gids* New West Indian Guide vol 62 1988 p 96 98 **The Caribbean** Catherine A. Sunshine, 1988 *Caribbean Sovereignty, Development and Democracy in an Age of Globalization* Linden Lewis, 2013 Many of the nations of the Caribbean that have become independent states have maintained as a central organizing nationalist principle the importance in the beliefs of the ideals of sovereignty democracy and development Yet in recent years political instability the relative size of these nations and the increasing economic vulnerabilities of the region have generated much popular and policy discussions over the attainability of these goals The geo political significance of the region its growing importance as a major transshipment gateway for illegal drugs coming from Latin America to the United States issues of national security vulnerability to corruption and increases in the level of violence and social disorder have all raised serious questions not only about the notions of sovereignty democracy and development but also about the long term viability of these nations This volume is intended to make a strategic intervention into the discourse on these important topics but the importance of its contribution resides in its challenge to conventional wisdom on these matters and the multidisciplinary approach it employs Recognized experts in the field identify these concerns in the context of globalization economic crises and their impact on the Caribbean **The Legacies of Caribbean Radical Politics** Shalini Puri, 2013-09-13 The year 2009 marked the 50th anniversary of the Cuban Revolution and the thirtieth anniversary of the Grenadian and Nicaraguan Revolutions and as such offered an occasion to assess the complex legacies of revolutionary politics in the Caribbean This volume considers what we might learn from such revolutionary projects and their afterlives from their successes and their errors It explores what struggles currently underway in the Caribbean share with these earlier and longer revolutionary traditions and how they depart from them It analyzes radical movements in Jamaica Grenada Cuba Venezuela Guadeloupe Suriname and Guyana not only in their national dimensions but in terms of their regional linkages and mutual influences The chapters are drawn from various disciplines and a range of democratic leftist projects They consider not only state and party politics but also civil society cultural politics and artistic production strikes and grassroots activism This book was published as a special issue of *Interventions International Journal of Postcolonial Studies* *Manufacturing Powerlessness in the Black Diaspora* Charles Green, 2002-05-09 Despite the economic utopianism brought on by globalization effective solutions to the persistent plight of urban blacks throughout the African diaspora continue to elude scholars politicians and community leaders Charles Green brings a decade of research and original fieldwork in Africa the Caribbean and the United States to investigate the interface of the historic racism faced by these urban communities and contemporary trends of globalization Green pays particular attention to the condition of the youth whose aspirations vulnerabilities and insights into their own conditions are central to the future prospects for their communities as a whole Considering the impacts of economic restructuring and cultural diffusion alike his analysis asserts

the importance of both global ties and local distinctiveness Ultimately Manufacturing Powerlessness aims to encourage the formation of alliances throughout the diaspora so that urban black communities can manufacture a future of empowerment Visit the author s web page [Biblical Resistance Hermeneutics within a Caribbean Context](#) Oral A. W. Thomas,2016-04-08 The Bible is of central importance within Caribbean life but is rarely used as an agent for social change Caribbean biblical hermeneutics focus more on the meaning of biblical texts for today and less on the context in which the texts themselves were written Biblical Resistance Hermeneutics within a Caribbean Context offers a biblical hermeneutic that acknowledges the importance of the socio ideological interests theological agendas and social practices that produced the biblical texts as well as the socio cultural context of the contemporary reader The book examines the social context of post independence Caribbean and outlines the difficulties of biblical interpretation within Christian communities that descend from a history of slavery Current hermeneutical practices in the Caribbean are critiqued and a biblical resistant reading offered that enables the Bible to be used as a cultural weapon of resistance *Dependency and Socialism in the Modern Caribbean* Euclid A. Rose,2002-01-01 Was the Anglophone Caribbean condemned by its colonial history to permanent conditions of dependency and by Cold War geopolitical realities to international interventionism In *Dependency and Socialism in the Modern Caribbean* Euclid Rose focuses upon the efforts made by the English speaking Caribbean through case studies that compare and contrast the political economies of Guyana Jamaica and Grenada to break out of the legacy of colonial dependency and underdevelopment through the implementation of a Caribbean brand of socialism The work considers the Caribbean s adoption of Fabian style socialism as an alternative to capitalist development and how these socialist policies were impacted by differences in infrastructure capacity economic and social resources and political agendas It highlights the pivotal role of race and class and the hitherto little studied impact of religion on the region s political economy Moreover the study calculates the impact of the global economy upon Caribbean socio economic conditions and the ideological geopolitical and strategic implications of the Cold War and the Caribbean s socialist alignment on the nature character and intensity of British and American interventionism in the region A must read for political economists in search of a greater understanding of the postcolonial political economy of the Caribbean and Latin America *Islands at Risk?* John Connell,2013 This book provides a wide ranging comparative analysis of contemporary economic social political and environmental change in small islands island states and territories through every ocean It focuses on those island realms conventionally perceived as developing rather than developed in the Caribbean Pacific and Indian Oceans John Connell examines the decline of agriculture and the rise of tourism the problems of urbanization and the particular role of migration and remittances within a culture of migration He seeks to balance economic challenges with environmental threats notably that of climate change and social changes with the survival of culture pointing to awkward and hybrid development futures This unique study comprehensively balances environmental social and economic changes to provide a more wide ranging assessment of sustainability that will be

invaluable for academics and postgraduate students on environment and international development courses **Consuming the Caribbean** Mimi Sheller, 2003 This fascinating book demonstrates how colonial exploitation of the Caribbean led directly to contemporary forms of consumption of the region and its products and calls for a global ethics of consumer responsibility

Sport Fitness Culture Prof. Karin Volkwein-Caplan, 2013-11-27 *Sport Fitness Culture* focuses on the influences of culture and society on human movement such as sport physical activity and fitness The text introduces and analyzes current issues of importance for those concerned with human movement and culture whether it is in the context of teaching physical education coordinating marketing sport and recreational programs coaching or serving the general population young and old with any form of physical activity *Sport Fitness Culture* incorporates interdisciplinary cutting edge work reflecting various research paradigms from these theoretical perspectives sociology psychology history philosophy anthropology gender and race studies and cultural studies The fact that more and more people of all ages are participating in sport and physical activity means that serious attention must be paid to increasing awareness of the positive as well as the negative effects of such involvement Indeed sport has become a major socio cultural factor in people's lives In the USA there is hardly anyone who is not touched by this movement however people have very different experiences based on their cultural and socio economic background including gender race ethnicity age ability as well as their sexual and religious orientations This book will educate people about the importance of socio cultural as well as psychological factors influencing people's choices opportunities experiences and limitations in the domain of human movement
