The Challenger Spirit:

The Challenger Spirit Khurshed Dehnugara, Claire Genkai Breeze, 2011-11-01 Challenger organizations are those that are disrupting their market challenging their own habits and taking on dominant competitors They are typically innovative and radical but what of those that lead them This book analyzes the practices and disciplines that underpin the successful Challenger organization In particular it looks at how Challenger leadership and culture can be developed in large complex established businesses

The Challenger Spirit Mark Ridley, 2013 Challenger organisations are those companies which are disrupting their market and taking serious market share from their more established competitors Such companies typically have an ambition beyond the conventional resources available to them They are innovative and radical and most enjoy significant and sustained periods of growth This book analyses the practices and disciplines that underpin the successful challenger organisation In particular it looks at the leadership skills and the organisational culture required for companies to become challengers in their marketplace Written by two of the few consultants who specialise in and work with such companies this book will challenge conventional business thinking to the core

100 Mindsets of Challenger Leaders Khurshed Dehnugara, Claire Genkai Breeze, 2019-11-01 This book is written for leaders that are challenging the status quo from the inside of large established institutions As these organisations scale we notice that complexity grows their business models become entrenched and cultural barriers to change dominate The greatest challenge leaders face at this stage is one of maintaining their energy vitality and ability to innovate in the face of the personal risk entailed in doing so The 100 mindsets captured here are written as an illustrated series of sharp quick paradoxical insights that disturb habitual corporate logic The book is easy to pick up when five minutes are available to remind the reader how easy it is to slip back into the comfortable armchair of conformity and what to do to get out of it

Flawed but Willing Khurshed Dehnugara, 2014-11-01 Instability disturbance emergence networks informal learning trial error adaptability low growth fluctuation and momentum these are the experiences that dominate the lives of today's business leaders There is a growing awareness that the old industrial constructs of detailed planning perfection and process are no longer working as effectively as we might wish in our large established organizations This book is a challenge to the way we relate to each other and lead businesses in the post industrial age it is full of passionate stories reflections and insights The writing inspires the practice of alternative forms of courage acceptance of our imperfections and new methods of contact with each other as we navigate the changing nature of the workplace

Can Scorpions Smoke? Creative Adventures in the Corporate World Steve Chapman, 2014-02-26 Imagination creativity improvisation and play are not words that adults normally associate with their work but many secretly lament their absence in everyday life They are also words that many of us wouldn't put at the top of our curriculum vitae either However the world is changing and the emergence of an Age of Applied Artistry is calling for modern organisations to take the development of these skills more seriously as they become capabilities that are not just nice

to have but essential for survival in the corporate world of the future This book crashes together ideas from the world of Organisation Development OD gestalt psychology and improvisational theatre and distils them into some simple stories concepts and practices that anybody and everybody can experiment with in order to awaken and unleash their own creative spirit It is an unusual entertaining and insightful mix of biography and field guide that helps defrost the little creative genius inside of us all
