**The Civilized Demons: The Harappans in Rigveda** Malati J. Shendge, 2003-06 Myth and mysticism have reigned supreme in Rgvedic interpretation for more than two millennia and a half Even now it cannot be said to be free of these This study aims at completing the process of rational inquiry in Rgveda begun two centuries ago It leaves behind myths and mystic experiences simultaneously drawing the line between fact and fancy which has eluded the scholars Two types of evidence literary and archaeological have been used Literary evidence ranges from Rgveda to the Brahmanas The Archaeological material covers pre Harappan Harappan and post Harappan levels Through the interdisciplinary approach consisting of linguistic anthropological and symbolical analysis of the material the study emphasizes a consistently rational attitude to the study of Rgveda In fact as the study amply demonstrates the fresh air of reason may change our understanding of Rgveda and also of ancient Indian history Rgvedic hymns from this viewpoint may probably prove to be a valuable source of information of the historical events which led to the downfall of the pre Aryan Indus civilization This is correlated to the archaeological material available on the Harappan sites This is the first investigation of its kind and the conclusions of the study are no less original Besides establishing the rationality of the Rgvedic narratives it shows the events and their agents to be historical in the light of available archaeological material The theory and the approach hold out a promise and may transform our understanding of these ancient compositions from myth to history *The Civilized Demons* Malati J. Shendge, 1977 *Religion in India* Fred W. Clothey, 2007-01-24 Religion in India is an ideal first introduction to India s fascinating and varied religious history Fred Clothey surveys the religions of India from prehistory and Indo European migration through to the modern period Exploring the interactions between different religious movements over time and engaging with some of the liveliest debates in religious studies he examines the rituals mythologies arts ethics and social and cultural contexts of religion as lived in the past and present on the subcontinent Key topics discussed include Hinduism its origins and development over time minority religions such as Christianity Judaism Islam Sikhism Zoroastrianism Jainism and Buddhism the influences of colonialism on Indian religion the spread of Indian religions in the rest of the world the practice of religion in everyday life including case studies of pilgrimages festivals temples and rituals and the role of women Written by an experienced teacher this student friendly textbook is full of clear lively discussion and vivid examples Complete with maps and illustrations and useful pedagogical features including timelines a comprehensive glossary and recommended further reading specific to each chapter this is an invaluable resource for students beginning their studies of Indian religions *The Myth of the Aryan Invasion of India* David Frawley, 2025-02-10 This groundbreaking book was among the first to expose the fallacies of the Aryan Invasion Theory AIT and Aryan Migration Theory AMT originally proposed by colonial historians for political purposes rather than for understanding Indian civilization These theories largely disregarded the profound yogic mantric teachings and cosmic perspective of Vedic culture This updated edition incorporates all revisions

since the original publication and features a comprehensive introduction that highlights the vastness depth and enduring influence of Vedic civilization It also emphasizes its relevance to the global crises of the modern era Challenging the Aryan Invasion Migration Theory necessitates a rewriting of India s history as well as the history of Asia Europe and the world at large The book is bolstered by Dr Frawley s extensive works on the yogic interpretation of the Vedas and numerous recent archaeological discoveries India B.B. Kumar,2016-01-01 The caste though most important social institution of this country is the most misunderstood one It has undergone a lot of changes during last millennium and to a large extent it is a post Turk phenomenon in its present form The perception haziness about the caste and about India s culture and tradition is due to colonial myth making and growing culture and tradition illiteracy of the educated Indians The book deals with various aspects of caste culture and traditions of India *The Open Secret of India, Israel and Mexico* from Genesis to Revelations! Gene Matlock,2008-04 All the races of men along with their gods descend from Japhet son of Noah The Hebrew and Hindu holy books say that all our deities and religions came from a race of spacemen from Outer Space to keep mankind from devolving to animal level It was then and later too that the Nephilim appeared on earth when the divine beings cohabited with the daughters of men Genesis 6 4 The ancient Hindus and Turks called them Navalin Star Ship People and Anunaka Anunaki One who is from the Sky From the Place of No Pain The Sumerians Mesopotamians and Akkadians called them Anunaki Sky Gods People of Heaven and Earth The divine strangers appointed the tribe of Japhet or the Sanskrit Jyapeti to rule the earth This divine right of kingship extended also to their close relatives the Yadu Yadava and Yahuda Jews The divine religions they inherited were Judaism Christianity Hinduism Buddhism and Jainism all of which originated in Siberia But things went wrong Mankind kept getting worse Men started to deny that Christaya Kurus and Aryans as they were called originated from Mt Meru in Southern Siberia The ancient Jews insisted that mankind had spread from the Tower of Babylon which was just a symbol of Meru The Hindus likewise insisted that their Gods were home grown and not from Outer Space Yet the story might be true It extended over the entire Eastern Hemisphere *Itihaasa* Bhaktivejanyana Swami,2013-01-29 Dr Singh Science says that the different species were not created simultaneously but evolved gradually I came across a statement in the Bhagavad Gita to the effect that all 8 400 000 species of living entities are created simultaneously Is that correct Srila Prabhupada Yes Living beings move from one bodily form to another The forms already exist The living entity simply transfers himself just as a man transfers himself from one apartment to another One apartment is first class another is second class and another is third class Suppose a person comes from a lower class apartment to a first class apartment the person is the same but now according to his capacity for payment or karma he is able to occupy a higher class apartment Real evolution does not mean physical development but the development of Consciousness Do you follow The apartment already exists however it is not the lower class apartment that becomes the higher class apartment That is Darwins nonsensical theory He would say that the apartment has become high class Modern scientists think that life has come from

matter They say that millions and millions of years ago there was simply matter but no life We do not accept that Of the two energies life and matter life or spirit is the original superior energy and matter is the resultant inferior energy Spirit is independent and matter is dependent Dr Singh All that you have been saying completely contradicts Darwins theory of evolution Srila Prabhupada Darwin and his followers are rascals If originally there were no higher species why do they exist now Also why do the lower species still exist For example at the present moment we see both the intellectual person and the foolish ass Why do both these entities exist simultaneously Why hasnt the ass form evolved upwards and disappeared Why do we never see a monkey giving birth to a human In Bhagavad Gita the word yantra or machine means that in any species of life we are traveling in bodies that are like machines provided by material nature

**Jesus and Moses Are Buried in India, Birthplace of Abraham and the Hebrews!** Gene D. Matlock, 2000-11 Jesus and Moses are Buried in India Birthplace of Abraham and the Hebrews is a new kind of biblical history that brings out facts not myths and guessing games Unlike priests and preachers who exhort their followers to swallow lies and spiritual ordure I don t want my readers to swallow what I say naively They should check all my references for themselves This book follows the ancestors of the Hebrews from Eastern Siberia down to what is now the Indian subcontinent later to what is now Israel You ll be surprised to find out who and what Jehovah Abraham Sarah Moses Jesus really were The book also blasts dangerous myths such as the Christian fundamentalists assertion that God wants nearly all Jews to die in a Battle of Armageddon That war happened in India thousands of years ago We re now in Millennium 2000 It s time for mankind to let truth take over his existence

**Conceptions of Justice from Earliest History to Islam** Abbas Mirakhor, Hossein Askari, 2019-04-17 This book examines the conceptions of justice from Zarathustra to Islam The text explores the conceptions of justice by Zarathustra Ancient Egypt India Mesopotamia Noah Abraham and Moses During the Axial Age 800 200BCE the focus of justice is in India China and Greece In the post Axial age the focus is on Christianity The authors then turn to Islam where justice is conceived as a system which emerges if the Quranic rules are followed This work concludes with the views of early Muslim thinkers and on how these societies deteriorated after the death of the Prophet The monograph is ideal for those interested in the conception of justice through the ages Islamic studies political Islam and issues of peace and justice

**Bureaucratic Archaeology** Ashish Avikunthak, 2022-02-03 Bureaucratic Archaeology is a multi faceted ethnography of quotidian practices of archaeology bureaucracy and science in postcolonial India concentrating on the workings of Archaeological Survey of India ASI This book uncovers an endemic link between micro practice of archaeology in the trenches of the ASI to the manufacture of archaeological knowledge wielded in the making of political and religious identity and summoned as indelible evidence in the juridical adjudication in the highest courts of India This book is a rare ethnography of the daily practice of a postcolonial bureaucracy from within rather than from the outside It meticulously uncovers the social cultural political and epistemological ecology of ASI archaeologists to show how postcolonial state assembles and produces knowledge This is the first book length monograph on the workings of

archaeology in a non western world which meticulously shows how theory of archaeological practice deviates transforms and generates knowledge outside the Euro American epistemological tradition
