Decker,2017-07-05 Bodies mangled limbs broken skin flayed blood spilled from paintings to prints to small sculptures the art of the late Middle Ages and early modern period gave rise to disturbing scenes of violence Many of these torture scenes recall Christ s Passion and its aftermath but the martyrdoms of saints stories

of justice visited on the wicked and broadsheet reports of the atrocities of war provided fertile ground for scenes of the body's desecration. Contributors to this volume interpret pain suffering and the desecration of the human form not simply as the passing fancies of a cadre of proto sadists but also as serving larger social functions within European society. Taking advantage of the frameworks established by scholars such as Samuel Edgerton Mitchell Merback and Elaine Scarry to name but a few, *Death Torture and the Broken Body in European Art 1300-1650* provides an intriguing set of lenses through which to view such imagery and locate it within its wider social, political, and devotional contexts. Though the art works discussed are centuries old, the topics of the essays resonate today as twenty-first century Western society is still absorbed in thorny debates about the ethics and consequences of the use of force, coercion, including torture and execution, and about whether it is ever fully acceptable to write social norms on the bodies of those who will not conform.

The Museum Age in Austria-Hungary Matthew Rampley, Markian Prokopovych, Nóra Veszprémi, 2021-02-15. This important critical study of the history of public art museums in Austria-Hungary explores their place in the wider history of European museums and collecting, their role as public institutions, and their involvement in the complex cultural politics of the Habsburg Empire. Focusing on institutions in Vienna, Cracow, Prague, Zagreb, and Budapest, *The Museum Age in Austria-Hungary* traces the evolution of museum culture over the long nineteenth century, from the 1784 installation of imperial art collections in the Belvedere Palace as a gallery open to the public to the dissolution of Austria-Hungary after the First World War. Drawing on source materials from across the empire, the authors reveal how the rise of museums and display was connected to growing tensions between the efforts of Viennese authorities to promote a cosmopolitan and multinational social, political, and cultural identity on the one hand, and on the other, the rights of national groups and cultures to self-expression. They demonstrate the ways in which museum collecting policies, practices of display, and architecture engaged with these political agendas and how museums reflected and enabled shifting forms of civic identity, emerging forms of professional practice, the production of knowledge, and the changing composition of the public sphere. Original in its approach and sweeping in scope, this fascinating study of the museum age of Austria-Hungary will be welcomed by students and scholars interested in the cultural and art history of Central Europe.
