Kids' Slips Jeri J. Jaeger,2004-12-13 The study of speech errors or slips of the tongue is a time honored methodology which serves as a window to the representation and processing of language and has proven to be the most reliable source of data for building theories of speech production planning However until Kids Slips there has never been a corpus of such errors from children with which to work This is the first developmental linguistics research volume to document how online processing is revealed in young children ages 18 months through 5 years through their slips of the tongue Thus this text provides a new methodology and data source which

will greatly expand our ability to uncover the details of early language development Professor Jaeger's groundbreaking book incorporates both details of her methodology and findings with implications for different aspects of language development including phonetics and phonology the lexicon semantics morphology and syntax While all the child data is included in the book a Web site hosted by the author provides readers with the adult data as well Kids Slips targets those who study language development in linguistics developmental psychology and speech and hearing as well as those who study language representation and processing more generally in the same disciplines
