The City In Late Antiquity Leicester Nottingham Studies In Ancient Society:

The City in Late Antiquity Dr John Rich, John Rich, 2002-09-11 The city was the nexus of the Roman Empire in its early centuries The City in Late Antiquity charts the change undergone by cities as the Empire was weakened by the third century crisis and later disintegrated under external pressures The old picture of the classical city as everywhere in decline by the fourth century is shown to be far too simple and John Rich seeks to explain why urban life disappeared in some regions while elsewhere cities survived through to the Middle Ages and beyond

The City in Late Antiquity Dr John Rich, John Rich, 2002-09-11 The city was the nexus of the Roman Empire in its early centuries The City in Late Antiquity charts the change undergone by cities as the Empire was weakened by the third century crisis and later disintegrated under external pressures The old picture of the classical city as everywhere in decline by the fourth century is shown to be far too simple and John Rich seeks to explain why urban life disappeared in some regions while elsewhere cities survived through to the Middle Ages and beyond

The Transition to Late Antiquity, on the Danube and Beyond Andrew Poulter, 2007-12-27 This is a major contribution to the fascinating debate on the changes that occurred in the late Roman period contrasting the approaches of history and archaeology Covering the themes of the army the countryside and the nature of cities the volume focuses on the lower Danube but there are comparative studies from Italy to the Euphrates

Theory and Practice in Late Antique Archaeology Luke A. Lavan, William Bowden, 2003 An exploration of theoretical frameworks methodology and field practice suited to the late antique Mediterranean Broad themes such as long term change topography the economy and social life are covered but in terms of the issues and problems being tackled by scholars of late antiquity

Public Space in the Late Antique City (2 vols.) Luke Lavan, 2021-01-11 This book investigates the nature of public space in Mediterranean cities A D 284 650 meaning places where it was impossible to avoid meeting people from all parts of society whether different religious confessions or social groups The first volume considers the architectural form and everyday functions of streets fora agorai market buildings and shops including a study of processions and everyday street life The second volume analyses archaeological evidence for the construction repair use and abandonment of these urban spaces based on standardised principles of phasing and dating The conclusions provide insights into the urban environment of Constantinople an assessment of urban institutions and citizenship and a consideration of the impact of Christianity on civic life at this time

Urban Space in the Middle Ages and the Early Modern Age Albrecht Classen, 2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical

development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city. By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society. Legal historical aspects also find as much consideration as practical questions concerning water supply and sewer systems. Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration. Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms.

Roman Infrastructure in Early Medieval Britain Mateusz Fafinski, 2025-10-01. Early Medieval Britain was more Roman than we think. The Roman Empire left vast infrastructural resources on the island. These resources lay buried not only in dirt and soil but also in texts, laws, chronicles, charters, even churches and landscapes. This book uncovers them and shows how they shaped Early Medieval Britain. Infrastructures material and symbolic can work in ways that are not immediately obvious and exert an influence long after their creators have gone. Infrastructure can also rest dormant and be reactivated with a changed function, role and appearance. This is not a simple story of continuity and discontinuity. It is a story of adaptation and transformation of how the Roman infrastructural past was used and re used and also how it influenced the later societies of Britain.

Envoys and Political Communication in the Late Antique West, 411-533 Andrew Gillett, 2003-08-28. Warfare and dislocation are obvious features of the break up of the late Roman West but this crucial period of change was characterized also by communication and diplomacy. The great events of the late antique West were determined by the quieter labours of countless envoys who travelled between emperors, kings, generals, high officials, bishops, provincial councils and cities. This book examines the role of envoys in the period from the establishment of the first barbarian kingdoms in the West to the eve of Justinian's wars of reconquest. It shows how ongoing practices of Roman imperial administration shaped new patterns of political interaction in the novel context of the earliest medieval states. Close analysis of sources with special interest in embassies offers insight into a variety of genres: chronicles, panegyrics, hagiographies, letters and epitaphs. This study makes a significant contribution to the developing field of ancient and medieval communications.

Roman Berytus Linda Jones Hall, 2004. A comprehensive history of Roman Berytus from its founding as a Roman military colony in the reign of Augustus to its development as one of only three centers for the study of law in the rule of Justinian.

A History of the Early Medieval Siege, C. 450-1220 Peter Fraser Purton, 2009. Byblos, Lebanon. An early twelfth century crusader castle with donjon. Book Jacket.
