Alfred L. Brophy

The Case For Black Reparations:

The Case for Black Reparations Boris I. Bittker, 1973 Originally published in 1972 Boris Bittker's riveting study of America's debt to African Americans was well ahead of its time. Published by Toni Morrison when she was an editor, the book came from an unlikely source. Bittker was a white professor of law at Yale University who had long been ambivalent about the idea of reparations. Through his research into the history and theory of reparations, namely the development and enforcement of laws designed to compensate groups for injustices imposed on them, he found that it wasn't a crazy far-fetched idea. In fact, beginning with post-Civil War demands for forty acres and a mule, African American thinkers have long made the case that compensatory measures are justified not only for the injury of slavery but for the further setbacks of almost a century of Jim Crow laws and forced school and job segregation measures that effectively blocked African Americans from enjoying the privileges of citizenship. The publication of important recent books by black scholars like Randall Robinson and the growth of a highly vocal reparations movement in the beginning of this century make this book long unavailable essential reading. Bittker carefully illuminates the historical provision and statutes for legitimate claims to reparations, the national and international precedents for such claims, and most important, the obstacles to a national policy of reparations.

Reparations for Slavery Sarah Goldy-Brown, 2017-12-15 The enslavement of Africans in America is one of the most shameful aspects of U.S. history. In modern times, some activist groups have called for compensation, also known as reparations, to be made to descendants of slaves. Detailing all the angles of this ongoing debate, this subject is explored through rich main text, engaging sidebars, primary sources, and annotated quotes from influential figures. Readers get a nuanced understanding of the arguments both for and against reparations for slavery, enhancing what they learn in their social studies classes.

The Black Reparations Project William Darity, Jr., Kirsten Mullen, Lucas Hubbard, 2025-01-07 This groundbreaking resource moves us from theory to action with a practical plan for reparations. A surge in interest in black reparations is taking place in America on a scale not seen since the Reconstruction Era. The Black Reparations Project gathers an accomplished interdisciplinary team of scholars, members of the Reparations Planning Committee, who have considered the issues pertinent to making reparations happen. This book will be an essential resource in the national conversation going forward. The first section of The Black Reparations Project crystallizes the rationale for reparations, cataloguing centuries of racial repression, discrimination, violence, mass incarceration, and the immense black-white wealth gap. Drawing on the contributors' expertise in economics, history, law, public policy, public health, and education, the second section unfurls direct guidance for building and implementing a reparations program, including draft legislation that addresses how the program should be financed and how claimants can be identified and compensated. Rigorous and comprehensive, The Black Reparations Project will motivate, guide, and speed the final leg of the journey for justice.

Bittker,1973-01-01 **Handbook of Equality of Opportunity** ,2024-07-12 This Handbook provides an authoritative exposition of equality of opportunity It presents the different concepts most commonly associated with equality of opportunity and discusses the many problems dominating the controversies on equality of opportunity at the theoretical policy or practical level The chapters give a concise exposition of the different conceptions and basic concepts of equal opportunities They clarify variables that are part of the algorithm of equal opportunities e g opportunity equality non discrimination fairness responsibility chance and choice excellence qualifications effort talent merit desert inequality and risk The idea of equality of opportunity has traditionally been associated with a set of largely unquestioned ideals and over the last 50 years it has been at the very centre of the major progressive social changes and firmly entrenched in political rhetoric Yet the idea of equality of opportunity is far from unquestionable or unproblematic as the only solid assumption different conceptions have in common is their rejection of fixed social relations but not hierarchy itself Disagreements over the fundamental principles criticism over the inefficiency of policies aiming to ensure equal opportunities and objections to their unfairness all pose questions that current conceptions answer in different ways This Handbook examines a wide variety of questions about issues of motivation procedures genealogy taxonomy and compensation **Reparations** Duke L.
