might a shift away from petroleum provide opportunities to improve or remake cities for the economic social and environmental imperatives of twenty first century sustainability Such questions are the focus of contributors to this book with perspectives ranging across the planning challenge overarching petroleum futures governance transition and climate change questions the role of various urban transport nodes and household responses ways of measuring oil vulnerability and the effects on telecommunications ports and other urban infrastructure This comprehensive volume with contributions from and focusing on cities in Australia the UK the US France Germany the Netherlands and South Korea provides key insights to enable cities to plan for the age beyond petroleum

Climate Change and Individual Moral Obligation. Kant's Categorical Imperative As a Basis Alexander Hölzl, 2020-10-28 Seminar paper from the year 2020 in the subject Philosophy Practical Ethics Aesthetics Culture Nature Right grade 2.0 University of Vienna language English abstract This paper discusses whether respectively how it is possible to ethically justify an individual moral obligation to act against climate change on the basis of Kant's categorical imperative Actions against climate change might include using public transport instead of cars avoiding travelling by aircraft protesting for climate justice supporting environmental organizations boycotting oil companies stopping wasteful consumption refusing having a baby using sustainable energy forms instead of fossil fuels passing stricter laws or investing in the development of alternative energy forms

A Psychological Approach to Ethical Reality K. Hillner, 2000-11-16 The pre eminent 19th century British ethicist Henry Sidgwick once said All important ethical notions are also psychological except perhaps the fundamental antitheses of good and bad and wrong with which psychology as it treats of what is and not of what ought to be is not directly concerned quoted in T. N. Tice and T. P. Slavens 1983 Sidgwick's statement can be interpreted to mean that psychology is relevant for ethics or that psychological knowledge contributes to the construction of an ethical reality This interpretation serves as the basic impetus to this book but Sidgwick's statement is also analyzed in detail to demonstrate why a current exposition on the relevance of psychology for ethical reality is necessary and germane
