The Collaborative Habit The Collaborative Habit:

The Collaborative Habit Twyla Tharp, 2009-11-24 In a career that has spanned four decades choreographer Twyla Tharp has collaborated with great musicians designers thousands of dancers and almost a hundred companies She has experienced the thrill of shared achievement and has seen what happens when group efforts fizzle Her professional life has been and continues to be one collaboration after another In this practical sequel to her national bestseller *The Creative Habit* Tharp explains why collaboration is important to her and can be for you She shows how to recognize good candidates for partnership and how to build one successfully and analyzes dysfunctional collaborations And although this isn't a book that promises to help you deepen your romantic life she suggests that the lessons you learn by working together professionally can help you in your personal relationships These lessons about planning listening organizing troubleshooting and using your talents and those of your coworkers to the fullest are not limited to the arts they are the building blocks of working with others like if you're stuck in a 9 to 5 job and have an unhelpful boss Tharp sees collaboration as a daily practice and her book is rich in examples from her career Starting as a twelve year old teaching dance to her brothers in a small town in California and moving through her work as a fledgling choreographer in New York she learns lessons that have enriched her collaborations with Billy Joel Jerome Robbins Mikhail Baryshnikov Bob Dylan Elvis Costello David Byrne Richard Avedon Milos Forman Norma Kamali and Frank Sinatra Among the surprising and inspiring points Tharp makes in *The Collaborative Habit* Nothing forces change more dramatically than a new partnership In a good collaboration differences between partners mean that one plus one will always equal more than two A good collaborator is easier to find than a good friend If you've got a true friendship you want to protect that To work together is to risk it Everyone who uses e-mail is a virtual collaborator Getting involved with your collaborator's problems may distract you from your own but it usually leads to disaster When you have history you have ghosts If you're returning to an old collaboration begin at the beginning No evocation of old problems and old solutions Tharp's conclusion What we can learn about working creatively and in harmony can transform our lives and our world
