Superintendent's Welcome Back Message

I am excited to welcome everyone back for the start of the 2019-20 school year and hope you had an enjoyable summer. A special welcome to the families who are new to the Medical Lake School District. We are happy to serve you and your child beginning the first day of school, Wednesday, August 28, 2019.

We thank those who participated in the Center for Educational Effectiveness Survey to measure the Educational Effectiveness of our schools and district. We had 1,400 responses combined with students, parents and staff. Overall the results are very positive, however, we recognized the need to increase parent involvement and to teach and celebrate cultural diversity. The district will use the results to develop our five year strategic plan and schools will use it for their 2019-20 school improvement planning.

Due to community support and the passing of the six year capital levy, we have been able to begin updates to our facilities this summer. The high school received new flooring in the cafeteria, additional security cameras have been installed in all our buildings, along with a small cosmetic upgrade to the technology building. We will continue to make effective use of our capital funds and thank you for approving the levy in February of 2017.

We are excited to hire 23 new staff members to our district! We welcome 15 teachers, 4 paraeducators, and 4 coaches to our instructional and extra-curricular staff. Additionally, across the district we hired replacements for the Hallett Elementary Principal, payroll/benefits administrator, transportation director and added a new human resources position. We are very pleased to add this talented group to our Medical Lake Team.

We begin the second and final phase of our Chromebook roll-out made possible through a grant from the Department of Defense. This will allow all of our kindergarten through 12th grade students access to a Chromebook. The high school tested it out last year with great success, this year the middle school and both elementaries will be able to do the same. We are thrilled to continue the implementation of one on one devices for all of our students.

Some exciting shifts we have made with this implementation include adopting new English/Language Arts materials for grades 6-12 that support blended digital learning for all students through interactive and multimedia learning opportunities. In grades K-5 we increased our support of math through Zeam, a computer-based program that aligns with our math curriculum, so teachers can work with students in small groups and target specific needs. Our focus is on identifying our student needs and then finding the right tools to address those needs, digital or otherwise.

As always we look forward to continuing our robust extra-curricular activities for 2019-20. Please feel free to join us for events throughout the year. They are posted online as well as on our reader boards throughout the district. It is exciting to see the number of students who participate in activities.

We encourage you to follow us on Facebook, Medical Lake School District, for the latest information and the monthly Superintendent's message. In closing, thank you for your tremendous support of our schools!

Sincerely,
Tim Ames

Achieving Success for New and Aspiring Superintendents Mary Frances Callan, William Levinson, 2011 The authors of this book wrote it for those aspiring to be superintendents those new to the position and those completing their second or third year and who are looking to the future What makes their approach unique is the belief that talented people who aspire to be superintendents are far more likely to accomplish that goal and achieve success on the job if they understand the totality of the position School districts are complex organizations Providing effective leadership to these organizations requires mastery of a wide array of leadership and organizational skills Aspiring superintendents with vision and motivation who understand the inherent challenges of the position have a great advantage over those who do not The book's goal is to provide readers with this advantage This is why the book covers the full cycle of the first superintendent position preparation application and transition the challenges of the first few years and the decision to stay or move to another position Aspiring and new superintendents who read the book will learn about the full range of skills and knowledge needed to succeed They will be better prepared to be effective superintendents

Jane Raggedfir Was a Dike Steven Kladstrup, 2022-09-08 Early Readers Praise For Jane Raggedfir Was a Dike a great read funny heroic and frightening a detailed account of a teacher's life laugh out loud storytelling heartfelt funny and eye opening If you are a veteran teacher this story will make you laugh And cry And maybe stamp your feet as you curse all the idiots who turned your job into a drive up window for people who simply want things their way If you're thinking about a career as a public school teacher in the United States reading this book may make you think twice Jane Raggedfir is an in your face heads up on what you'll truly be facing once you're on the job Written as a set of novels spanning the course of a veteran teacher's last year on the job Jane Raggedfir's story will have you laughing when you're not crying pondering when you're not simply appalled and in the end sympathizing with the people who are serving on the real world front lines we call classrooms doing their best to fight the good fight That's because this is the story

of how impossible it is to actually be a teacher nowadays In Volume 1 Back to School you ll start learning about All the sacrifices All the endless expectations All the so called leadership All the incompetence All the secrets All the compromises All the competition All the merciless scrutiny All the blame All the unfairness And last but not least all the consequences Inspired by issues and practices in the real world of education this first volume Back To School is your introduction to Jane Raggedfir a high school teacher who spent the last years of her career trying to hold back the waters of ignorance and save a troubled teen only to fail spectacularly thanks to all the hypocrisy and short sightedness that has too often turned public education into a fragmented fear based nightmare of self serving competition and back biting disrespect Get ready to experience the non public side of public education as Jane deals with the system and the system in turn deals with her Likewise get ready to learn the secrets that the rest of the staff doesn t know about Mrs Raggedfir like the truth that she is anything but safe in the classroom and is in fact disabled in a way that no one else can ever fully understand So if you re an admin in an American public school go ahead and burn this book right now before it challenges your tried and true ways of operating If you re simply on the outside looking in i e an interested party who wants to know why teachers and teaching seem so messed up these days this series will offer you plenty of insight into what s been going on particularly in some of the best schools No matter where you re coming from Jane Raggedfir will take you places you haven t been before in any other book about teaching Instead of all the rah rah rose colored I just love teaching stories Jane s journey will have you howling and shaking your head even as it clues you in on how compromised the profession really is and where many of the dark closets in your own local schools can be found Please Note This is Volume 1 of a planned series While this first volume stands on its own as a humorous and painful example of what it s really like for teachers when a school year is about to get underway it is also intended as an invitation to readers to come back for the rest of the story as additional volumes are released Volume 1 Back To School includes Prologue The Edge Part 1 The Dog Days of August Part 2 Workshop Week

Community Education for Social Justice Cameron White, 2014-02-05 What is community? How important is community in the 21st century? Where might the idea of community fit in education and schooling? Teaching and learning? These are the questions and themes embedded in this book. The general critique is that community is an add-on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today. Our focus is to provide critical investigations as to the possibility of community and that we need community now more than ever. The concept of community education brings many ideas and issues to mind. Related themes include place-based, field-based, environmental service learning, and outdoor education. Each has its own more narrow focus with community education perhaps an umbrella term than encompasses them all. Nevertheless, the suggestion here is that instead of community education serving as an extension or add-on to traditional approaches, it should be the focus of all education. What is often missing in teaching and learning are contexts and connections that make education meaningful. Community education engages participants in problem- and issues-based approaches to the local community, thereby facilitating that local-to-global link. Instead of compartmentalized subjects, integrated approaches use what students and the community know or understand to develop further questions, solutions, or even problems. Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems. It enables the community to become the classroom, thus ensuring a more long-term connection to active rather than passive endeavors as citizens. *Superintendent's Bulletin* San Diego City Schools, 1944

Possibilities of the Impossible Portia S. Bonner, 2022-04-18 Using metaphors of nets trenches sink holes and cisterns this book shows instances of the obstacles that hinder academic success for our children The purpose of this book is to bring an awareness of what is broken in our educational system by looking at leadership and reform efforts in the midst of relationships sustainability of reform efforts in economic unpredictability the impact on the future workforce and what is needed to overcome obstacles A second purpose is to engage educators in particular leadership in thought provoking conversations around building the trusting relationships amongst stakeholders that is necessary for effective transformative and successful school districts The book introduces three case studies of three school districts that in the form of short vignettes share stories of how relationships can impact the climate and culture of a district This book will contribute significantly to the establishment of trusting relationships that empower educational leaders to work through reform efforts for the good of their communities and help future leaders persevere and not fall into despair in their leadership journey but instead learn along the way
