Surface And Depth The Quest For Legibility In American Culture

Damien B. Schlarb

Surface And Depth The Quest For Legibility In American Culture:

Surface and Depth Michael T. Gilmore, 2003-01-16 The idea of a common American culture is in retreat arguments emphasizing difference have discredited the grand synthetic studies that marginalized groups and perspectives at odds with the master narrative This work is an attempt to revitalize an interpretive overview Surface and Depth Michael T. Gilmore, 2003-01-16 The idea of a common American culture has been in retreat for a generation or more Arguments emphasizing difference have discredited the grand synthetic studies that marginalized groups and perspectives at odds with the master narrative *Surface and Depth The Quest for Legibility in American Culture* is a fresh attempt to revitalize an interpretive overview It seeks to recuperate a central tradition while simultaneously recognizing how much that tradition has occluded The book focuses on the American zeal for knowing or making accessible This compulsion has a long history stretching back to Puritan anti monasticism to the organization of the landscape into clearly delineated gridwork sections and to the creation of a national government predicted on popular vigilance It can be observed in the unmatched American receptivity to the motion pictures and to psychoanalysis the first a technology of visual surfaces the second a technique for plumbing interior depths Popular literature especially the Western and the detective story has reinscribed the cult of legibility Each genre features a plot that drives through impediments to transparent resolution Elite literature has adopted a more contradictory stance The landmarks of the American canon typically embark on journeys of discovery while simultaneously renouncing the possibility of full disclosure as in Ahab's doomed pursuit of the inscrutable white whale The notorious modernism of American literature its precocious attraction to obscurity and multiple meaning evolved as an effort to block the intrusions of a hegemonic cultural dynamic The American passion for knowability has been prolific of casualties Acts of making visible have always entailed the erasure and invisibility of racial minorities American society has also routinely trespassed on customary areas of reserve A nation intolerant of the hidden paradoxically pioneered the legal concept of privacy but it did so in reaction to its own invasive excesses **Philip Roth's Rude Truth** Ross

Posnock, 2008-07-28 Has anyone ever worked harder and longer at being immature than Philip Roth The novelist himself pointed out the paradox saying that after establishing a reputation for maturity with two earnest novels he worked hard and long and diligently to be frivolous an effort that resulted in the notoriously immature Portnoy's Complaint 1969 Three and a half decades and more than twenty books later Roth is still at his serious pursuit of the unserious But his art of immaturity has itself matured developing surprising links with two traditions of immaturity an American one that includes Emerson Melville and Henry James and a late twentieth century Eastern European one that developed in reaction to totalitarianism In Philip Roth's *Rude Truth* one of the first major studies of Roth's career as a whole Ross Posnock examines Roth's mature immaturity in all its depth and richness Philip Roth's *Rude Truth* will force readers to reconsider the narrow categories into which Roth has often been slotted laureate of Newark New Jersey junior partner in the firm Salinger Bellow Mailer and

Malamud Jewish American regionalist In dramatic contrast to these caricatures the Roth who emerges from Posnock's readable and intellectually vibrant study is a great cosmopolitan in the tradition of Henry James and Milan Kundera

Melville's Wisdom Damien B. Schlarb, 2021 This book explores the manner in which Herman Melville responds to the spiritual crisis of modernity by using the language of the biblical Old Testament wisdom books to moderate contemporary discourses on religion skepticism and literature Melville's work is an example of how romantic literature fills the interpretive lacuna left by contemporary theology Damien Schlarb argues that attending to Melville's engagement with the wisdom books Job Proverbs and Ecclesiastes can help us understand a paradox at the heart of American modernity the simultaneous displacement and affirmation of biblical language and religious culture In wisdom which addresses questions of theology radical scepticism and the nature of evil Melville finds an ethos of critical inquiry that allows him to embrace the acumen of modern analytical techniques such as higher biblical criticism while salvaging simultaneously the spiritual authority of biblical language Wisdom for Melville constitutes both object and analytical framework in this balancing act Melville's Wisdom joins other works of postsecular literary studies in challenging its own discipline's constitutive secularization narrative by rethinking modern putatively secular cultural formations in terms of their reciprocity with religious concepts and texts Schlarb foregrounds Melville's sustained career spanning concern with biblical wisdom its formal properties and its knowledge creating potential By excavating this project from Melville's oeuvre Melville's Wisdom shows how he seeks to avoid the spiritually corrosive effects of suspicious reading while celebrating truth seeking over subversive iniquity

Education and the Spirit of Time Olli-Pekka Moisio, Juha Suoranta, 2006 The aim of this book is to raise current social political and moral issues in social theory by taking a critical stance towards historical global and educational themes in the context of culture politics and technology Thus the focus of the book is critical Zeitgeist analysis and its potential in addressing various social maladies of the present era Methodologically critical Zeitgeist analysis is argued to be of value in demonstrating how to both utilize and expand the possibilities of writing normative social theory *The Humanities and the Dynamics of Inclusion Since World War II* David A. Hollinger, 2006-04-14 Publisher description **Reclaiming Authorship**

Susan S. Williams, 2013-06-15 There was in the nineteenth century a distinction made between writers and authors Susan S. Williams notes the former defined as those who composed primarily from mere experience or observation rather than from the unique genius or imagination of the latter If women were more often cast as writers than authors by the literary establishment there also emerged in magazines advice books fictional accounts and letters a specific model of female authorship one that valorized natural feminine traits such as observation and emphasis on detail while also representing the distance between amateur writing and professional authorship Attending to biographical and cultural contexts and offering fresh readings of literary works *Reclaiming Authorship* focuses on the complex ways writers such as Maria S. Cummins Louisa May Alcott Elizabeth Keckley Mary Abigail Dodge Elizabeth Stuart Phelps and Constance Fenimore Woolson put this

model of female authorship into practice Williams shows how it sometimes intersected with prevailing notions of male authorship and sometimes diverged from them and how it is often precisely those moments of divergence when authorship was reclaimed by women The current trend to examine women writers rather than authors marks a full rotation of the circle and writers can indeed be the more capacious term embracing producers of everything from letters and diaries to published books Yet certain nineteenth century women made particular efforts to claim the title author Williams demonstrates and we miss something of significance by ignoring their efforts

Location Awareness in the Age of Google Maps Rebecca Noone, 2024-07-12 Location Awareness in the Age of Google Maps explores the mundane act of navigating cities in the age of digital mapping infrastructures Noone follows the frictions routing through Google Maps categorising and classifying of spatial information Complicating the assumption that digital maps distort a sense of direction Noone argues that Google Maps location awareness does more than just organise and orient a representation of space it also organises and orients imaginaries of publicness selfsufficiency legibility and error At the same time Location Awareness in the Age of Google Maps helps to animate the ordinary ways people are challenging and refusing Google Maps vision of the world Drawing on an arts based field study spanning the streets of London New York London Toronto and Amsterdam Noone s encounters of asking for directions open up lines of inquiry and spatial scores that cut through Google s universal mapping project Location Awareness in the Age of Google Maps will be essential reading for information studies and media studies scholars and students with an interest in embodied information practices critical information studies and critical data studies The book will also appeal to an urban studies audience engaged in work on the digital city and the datafication of urban environments

Queequeg's Coffin Birgit Brander Rasmussen, 2012-01-06 Rather than seeing American literature as beginning with the writings of English or Spanish colonists Brander Rasmussen points to the wide variety of indigenous writing in the Americas prior to colonization The study looks at writing between 1524 and the mid 19th century work of Herman Melville

The Twilight of the Middle Class Andrew Hoberek, 2009-01-10 In The Twilight of the Middle Class Andrew Hoberek challenges the commonly held notion that post World War II American fiction eschewed the economic for the psychological or the spiritual Reading works by Ayn Rand Ralph Ellison Saul Bellow Phillip Roth Flannery O Connor Thomas Pynchon Don DeLillo and others he shows how both the form and content of postwar fiction responded to the transformation of the American middle class from small property owners to white collar employees In the process he produces compelling new accounts of identity politics and postmodernism that will be of interest to anyone who reads or teaches contemporary fiction Hoberek argues that despite the financial gains and job security enjoyed by the postwar middle class the transition to white collar employment paved the way for its current precarious state in a country marked by increasingly deep class divisions Postwar fiction provided the middle class with various imaginative substitutes for its former property owning independence substitutes that since then have not only allowed but abetted this class s downward mobility To read this fiction in the light of the middle

class experience is thus not only to restore the severed connections between literary and economic history in the second half of the twentieth century but to explore the roots of the contemporary crisis of the middle class

Decoding **Surface And Depth The Quest For Legibility In American Culture**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
