**Walter Scott**

## **Surgeons Daughter Sir Walter Scott:**

**The Surgeon's Daughter** Walter Scott, 1827-06 The Surgeon's Daughter is part of Chronicles of the Canongate which is a collection of stories by Sir Walter Scott published in 1827 and 1828 in the Waverley novels series. They are named after the Canongate in Edinburgh. After his financial ruin at the beginning of 1826, Scott committed himself to writing works that would produce funds for the Trustees of James Ballantyne & Co, including the massive *Life of Napoleon*. However, he retained the right to produce less substantial works for his own benefit, and the first result was the collection of shorter fiction known as *Chronicles of the Canongate*. This was in two volumes rather than the three occupied by most of the Waverley Novels, and its disparate nature meant that it would not interfere with his official writing project. The first mention of the two-volume publication actually envisages it being totally occupied by the tale which was to be entitled *The Surgeon's Daughter* in his diary for 12 May 1826. Robert Cadell records a proposal from Scott to write a small Eastern Tale which he agreed to publish as part of his strategy to set up as an independent publisher after the crash which had ruined Archibald Constable Ballantyne Scott and himself. In the event, *The Surgeon's Daughter* was to share the two volumes of the first series of *Chronicles of the Canongate* with *Chrystal Croftangry's Narrative* and two short stories, *The Highland Widow* and *The Two Drovers*. The *Narrative* and more than half of *The Highland Widow* were composed between May and July 1826, but for almost a year Scott then devoted his full energies to the *Life of Napoleon*, which he finished on 7 June 1827. He apparently resumed *The Highland Widow* on the 20th and finished it before the end of the month, as well as writing an Introduction in his own name. He had officially acknowledged his authorship of the Waverley novels on 23 February. *The Two Drovers* was probably composed in the first half of July, completing the first volume, but while he was waiting at the end of June to find out how long that story needed to be, he had already begun *The Surgeon's Daughter*, the sole occupant of the second volume, resuming it on 27 July and completing it on 16 September. [wikipedia.org](https://en.wikipedia.org/wiki/The_Surgeon%27s_Daughter) **The Surgeon's Daughter ; Castle Dangerous** Walter Scott, 1859

Sir Walter Scott - The Surgeon's Daughter Walter Scott, Sr., 2014-04 Sir Walter Scott 1st Baronet FRSE was a Scottish playwright, novelist, and poet who became the first English language author to be internationally celebrated within their own lifetime. Although he wrote extensively, he was by profession an advocate and judge and continued to practice alongside his writing career. Scott was fascinated by the oral tradition of the Scottish borders with its poetry, folklore, and legend, and he collected stories throughout his youth. As a young man, almost obsessively, Scott's friend James Ballantyne had founded a printing press in 1796 and had published much of Scott's early work, including the *Lay of the Last Minstrel*, which firmly established Scott's position in the Scottish literary tradition and that of English literature as a whole. Scott was by now printing regularly with the Ballantynes and convinced them to relocate their press to Edinburgh and become a partner in their business. In 1813, Scott was offered the post of Poet Laureate but turned the offer down, and the position was taken by Robert Southey. Until now, he had predominately written poetry, however, he became interested in the novel form despite its

comparative unpopularity for a supposed aesthetic inferiority Owing to this he published his first novel Waverley anonymously in 1814 Its success encouraged several more novels all of which were published under Author of Waverley as a means of piggybacking the success of Waverley and because Scott feared his traditional father would disapprove of such a trivial pursuit as novel writing Scott came to be known as the Wizard of the North for his writing and among literary circles it was an open secret that he was the author of these novels In 1815 the Prince Regent George dined with him as he wished to meet the Author of Waverley By 1825 a banking crisis was crippling the nation and the Ballantyne printing company went under with Scott left with debts of 130 000 approx 10mil in 2014 His pride kept him from accepting financial aid even from his admirer King George or declaring himself bankrupt He resolved to continue writing until he could pay his debts Compounding these unfortunate circumstances was the death of his wife in 1826 However he maintained his enormous literary output until 1831 by which point his health had begun to fail and he died on September 21st 1832 At his death he was still in debt the continuing sales of his work ensured that all debt was discharged shortly after he died The Surgeon's Daughter Walter Scott,1871 **THE SURGEON'S DAUGHTER AND CASTLE DANGEROUS** SIR WALTER SCOTT,1887 *The Surgeon's Daughter* Walter Scott,1880 **The Surgeon's Daughter** Sir Walter Scott, Sir,Walter Scott, Sr.,2004-06 A Feringi can then refuse gold said the Fakir I thought they took it from every hand whether pure as that of an Houri or leprous like Gehazi s even as the hungry dog recketh not whether the flesh he eateth be of the camel of the prophet Saleth or of the ass of Degial on whose head be curses **The Surgeon's Daughter** Sir Walter Scott,2017-09-14 One of three fantastic short stories produced by Scottish author Sir Walter Scott for the 1828 Christmas annual The Keepsake The Surgeon's Daughter and Castle Dangerous Walter Scott,2018-02-17 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Castle Dangerous and the Surgeon's Daughter** Walter Scott, Sr.,2014-03 This Is A New Release Of The Original 1905 Edition

## Unveiling the Power of Verbal Art: An Psychological Sojourn through **Surgeons Daughter Sir Walter Scott**

In a world inundated with screens and the cacophony of quick interaction, the profound energy and mental resonance of verbal beauty often disappear in to obscurity, eclipsed by the regular barrage of noise and distractions. Yet, nestled within the musical pages of **Surgeons Daughter Sir Walter Scott**, a captivating function of fictional beauty that impulses with raw feelings, lies an unforgettable journey waiting to be embarked upon. Written by a virtuoso wordsmith, that enchanting opus courses visitors on a mental odyssey, gently revealing the latent possible and profound influence stuck within the complicated web of language. Within the heart-wrenching expanse of the evocative evaluation, we shall embark upon an introspective exploration of the book is key styles, dissect their captivating writing model, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
