

Surreal Digital Photography One Off

Kaby Wing-Sze Kung

Surreal Digital Photography One Off:

Surreal Digital Photography Barry Huggins, Ian Probert, 2004 Digital photography has opened up new possibilities for the imaginative photographer offering a dazzling array of effects and new techniques This book explains how to make the most of this fledgling art form featuring everything from basic editing to complex digital montages **Complete Guide to High**

Dynamic Range Digital Photography Ferrell McCollough, 2008 It's the latest and hottest technique made possible only through digital High Dynamic Range photography is the process of taking several pictures of a scene at various exposures then merging them into one file So the entire photo can look crisp and detailed from highlights to midtones to shadows and photographers needn't sacrifice any part of their image And the best way to master this exciting technology is with this thorough easy to follow and visually spectacular guide No other title does justice to these cutting edge techniques which actually take the viewer into worlds far beyond normal photography sometimes even beyond normal human perception Ferrell McCollough a widely respected photographer pushes the boundaries and inspires others to pursue their artistic vision too The amazing results simply can't be achieved any other way *Image Studies* Sunil Manghani, 2012-11-27

Image Studies offers an engaging introduction to visual and image studies In order to better understand images and visual culture the book seeks to bridge between theory and practice asking the reader to think critically about images and image practices but also simultaneously to make images and engage with image makers and image making processes Looking across a range of domains and disciplines we find the image is never a single static thing Rather the image can be a concept an object a picture or medium and all these things combined At the heart of this book is the idea of an ecology of images through which we can examine the full life of an image to understand how an image resonates within a complex set of contexts processes and uses Part 1 covers theoretical perspectives on the image supplemented with practical entries on making researching and writing with images Part 2 explores specific image practices and cultures with chapters on drawing and painting photography visual culture scientific imaging and informational images A wide range of illustrations complement the text throughout and each chapter includes creative tasks keywords linked to an online resource summaries and suggested further reading In addition each of the main chapters include selected readings by notable authors across a range of subject areas including Art History Business Cognitive Science Communication Studies Infographics Neuroscience Photography Physics Science Studies Social Semiotics Statistics and Visual Culture *The Digital Photography Companion* Derrick

Story, 2008-03-13 This newest edition contains all new examples larger photographs and plenty of advice for taking top notch digital photos dealing with image resolution archiving and more **Lee Miller, Photography, Surrealism and the**

Second World War Lynn Hilditch, 2018-01-23 Lee Miller 1907-1977 was an American born Surrealist and war photographer who through her role as a model for Vogue magazine became the apprentice of Man Ray in Paris and later one of the few women war correspondents to cover the Second World War from the frontline Her comprehensive understanding of art

enabled her to photograph vivid representations of Europe at war the changing gender roles of women in war work the destruction caused by enemy fire during the London Blitz and the horrors of the concentration camps that embraced and adapted the principles and methods of Surrealism This book examines how Miller s war photographs can be interpreted as surreal documentary combining a surrealist sensibility with a need to inform Each chapter contains a close analysis of specific photographs in a generally chronological study with a thematic focus using comparisons with other photographers documentary artists and Surrealists such as Margaret Bourke White Dorothea Lange Walker Evans George Rodger Cecil Beaton Bill Brandt Henry Moore Humphrey Jennings and Man Ray In addition Miller s photographs are explored through Andr Breton s theory of convulsive beauty his credence that any subject no matter how horrible may be interpreted as art and his notion of the marvellous

Surreal Photography Daniela Bowker,2014-07-11 Surreal digital photography is not only an enjoyable extension of many enthusiast s repertoire but is has firmly established a foothold in the world of art This book reveals the latest developments in the field and demystifies the techniques used by modern surreal photographers whether they favor SOOC straight out of the camera or sophisticated digital manipulations Breaking down the shooting and editing process for any reader to follow and emulate this book provides step by step instructions for creating extraordinary scenes With contributions from numerous artists including Natalie Dybisz Jon Jacobsen and Dariusz Klimczak readers will be able to explore many different artistic styles from impossible landscapes to unsettling portraits

The Practical Zone System for Film and Digital Photography Chris Johnson,2012-09-10 Now fully updated for the digital photographer an authoritative and contemporary guide to Ansel Adams s Zone System presented by one of the true masters of this influential photographic technique

Digital Photography Pocket Guide Derrick Story,2004 Today s digital cameras are affordable and provide quality images that rival their traditional film counterparts Because digital images are easier to share and because you only have to print the pictures you need this new medium is both cost effective and environmentally friendly Best of all it s fun With a digital camera you can set free your creative spirit and take risks you never would with a film camera The only obstacle is learning how to unlock all or this power and pleasure packed into these pocket sized picture takers Digital Photography Pocket Guide 2nd Edition expands on the basic photography techniques introduced in the bestselling first edition to help you take the kind of pictures you ve always wanted to and now in full color This book is the photo mentor you ve always wanted it explains each of the camera s components shows you what they do and then helps you choose the right settings When you ask How can I get that picture simply pull this small guide out of your camera bag backpack or back pocket and find the answer quickly This fully illustrated book covers everything from image resolution shooting sports action close ups and night shots to memory cards transferring images archiving making QuickTime movies and much more Topics in the guide s three main sections on Digital Camera Components Standard Camera Functions and How Do I are labeled A to Z for quick reference Or if you prefer use the comprehensive index or table of contents to find the

information you need There s even an entire section of easy to read reference tables for quick look up of white balance settings exposure compensation camera mode explanations and much more

Reconceptualizing the Digital Humanities in Asia Kaby Wing-Sze Kung,2020-09-09 This book examines new forms of representation that have changed our perception and interpretation of the humanities in an Asian and digital context In analyzing written and visual texts such as the use of digital technology and animation in different works of art originating from Asia the authors demonstrate how literature history and culture are being redefined in spatialized relations amid the trend of digitization Research studies on Asian animation are in short supply and so this volume provides new and much needed insights into how art literature history and culture can be presented in innovative ways in the Asian digital world The first section of this volume focuses on the new conceptualization of the digital humanities in art and film studies looking at the integration of digital technologies in museum narration and cinematic production The second section of the volume addresses the importance of framing these discussions within the context of gender issues in the digital world discussing how women are represented in different forms of social media The third and final section of the book explores the digital world s impacts on people s lives through different forms of digital media from the electromagnetic unconscious to digital storytelling and digital online games This book presents a novel contribution to the burgeoning field of the digital humanities by informing new forms of representation and interpretations and demonstrating how digitization can influence and change cultural practices in Asia and globally It will be of interest to students and scholars interested in digitization from the full spectrum of humanities disciplines including art literature film music visual culture media and animation gaming and Internet culture This is a well written book and I enjoyed reading it The first impression of the book is that it is very innovative a down to the earth academic volume that discusses digital culture Professor Anthony Fung Professor Director School of Journalism and Communication The Chinese University of Hong Kong This book has contributed to the existing field of humanities by informing new forms of representation and interpretations and how digitization may change cultural practices There is comprehensive information on how the humanities in the digital age can be applied to a wide range of subjects including art literature film pop music music videos television animation games and internet culture Dr Samuel Chu Associate Professor The Faculty of Education The University of Hong Kong

Live Digital Theatre Aleksandar Sasha Dundjerović,2023-04-27 Live Digital Theatre explores the experiences of Interdisciplinary Performing Arts practitioners working on digital performance and in particular live digital theatre Collaborating with world leading practitioners Kolectiv Theatre UK Teatro Os Satyros Brazil and The Red Curtain International India this study investigates the ways to bring live digital performance into theatre training and performance making The idea of Interdisciplinary Performative Pedagogies is placed within the context of the exploration of live digital theatre and is used to understand creative practices and how one can learn from these practices The book presents a pedagogical approach to contemporary practices in digital performance from interdisciplinary live performance using digital

technology to live Zoom theatre YouTube mixed media recorded and live performance The book also combines a series of case studies and pedagogical practices on live digital performance and intermedial theatre This book will be of great interest to students and scholars in performing arts digital arts media and gaming
