Play and STEM Education in the Early Years Sue Dale Tunnicliffe, Teresa J. Kennedy, 2022-06-16 This edited book provides an overview of unstructured and structured play scenarios crucial to developing young children s awareness interest and ability to learn Science Technology Engineering and Mathematics STEM in informal and formal education

environments The key elements for developing future STEM capital enabling children to use their intuitive critical thinking and problem solving abilities and promoting active citizenship and a scientifically literate workforce begins in the early years as children learn through play employing trial and error and often investigating on their own Forty seven STEM experts come together from 16 countries Argentina Australia Belgium Canada England Finland Germany Israel Jamaica Japan Malta Mauritius Mexico Russia Sweden and the USA and describe educational policies and experiences related to young learners 3 4 years of age as well as students attending formal nursery school early primary school and the early years classes post 5 years of age The book is intended for parents seeking to provide STEM activities for their children at home and in playgroups citizen scientists seeking guidance to provide children with quality educational activities daycare practitioners providing educational structures for young children from birth to formal education primary school teachers and preservice teachers seeking to teach preschool kindergarten or children typically aged 5 8 years old in grades 1 3 as well as researchers and policy makers working in science didactics with small children

The Homeschooling Parent Teaches MATH! Kerridwen Mangala McNamara, 2023-11-10 We all worry about our kids learning math Even if the kids are in school there s always a concern Sometimes it s about the kid s concern sometimes it s about their teacher s concern parent teacher or otherwise But a lot of the time it s about US It s about our own math phobias those fears dislikes or aversions that we picked up from our own math experiences and that we inadvertently pass on to our kids We don t want them to be afraid of math we know that limits their opportunities and makes their lives harder and costs them more money but we just can t help it This book is here to help you deal with your own math phobias and come to if not outright enjoy math to at least appreciate it and be able to convey it to your kids without passing on the fear Kerridwen Mangala McNamara is NOT a math lover but she is a math appreciator and has worked through most of these issues herself Let her help you along your homeschooling journey and show you how to fight the Fear of Math monster so that it no longer intimidates you or your kids

The Everything STEM Handbook Rihab Sawah, 2015-07-10 Projects and experiments to inspire and challenge your kids The STEM fields science technology engineering and math are top education priorities in the United States and they are growing fields with a high demand for jobs If you want to make sure your children are prepared for the future in these fields here s how you can help Make it fun Expose them to hands on real world and fun activities so they ll become engaged motivated and successful students later on Look inside for ideas and activities to stimulate your child s interest in these fascinating subjects including Racing juice cans Setting up a circuit Observing potato osmosis Building a mousetrap race car Creating a Cartesian treasure map Going on a geometry scavenger hunt Building a bridge Exploring food chemistry With easy to understand examples problem solving tips and hands on projects your family can create together this guide gives you the tools you need to help your kids excel and foster a lifetime love of learning

Supporting Children and Youth Through

Spiritual Education Kirmani, Mubina Hassanali, Chapman, Amy L., Steele, Barbara M., Moallem, Mahnaz, Schroth, Stephen T., 2023-07-17 Across academic circles over the last few decades the interest and inquiry on spirituality continues to broaden. Currently the school system in the United States and many Western countries put their focus on academic achievement at the expense of preparing their students' inner cores for skills they will need to deal with a more complex and challenging world to come. *Supporting Children and Youth Through Spiritual Education* provides a platform for researchers and experts in the field of spirituality in children and youth to voice the urgent need for an educational system that truly nurtures the whole child. The book also considers the need to remove the misunderstandings about the terms spirituality and religion among those who work directly with children and youth. Covering key topics such as religion, cognitive development, and spiritual needs, this reference work is critical for principals, administrators, industry professionals, researchers, scholars, practitioners, academicians, instructors, and students.

Mother of Boys Survival Guide Suzy Shaw, 2024-11-22 *Mothers of Boys Survival Guide* is a book full of sensible insights on parenting boys. It is written with warmth, humor, and openness. If you are looking for practical advice from a big sister, you have found it. I love the wit, dedication, determination, and love with which the author approached mothering boys. I laughed out loud as I read the stories, I shook my head in agreement as I read the tips and strategies. This book is a treasure I will continue to turn to it for insight as I am now helping to raise grandchildren. Karyn B, mother of 3 boys and new grandmother. A heartwarming memoir about the joyful chaos of raising sons. *Mothers of Boys Survival Guide* is a personal and often humorous look into the delights of boy motherhood. It's packed with tried and true methods. This uplifting journey empowers mothers to succeed and survive through every stage of their parental journey. Matthew K, father of a two-year-old son. Visit [MothersOfBoys](#) for resources and more information.

Leading Technology-Rich Schools Barbara B. Levin, Lynne Schrum, 2015-04-25 This timely book shows how award-winning secondary schools and districts are successfully using technology and making systemic changes to increase student engagement, improve achievement, and reinvigorate the teaching and learning process. Through in-depth case studies, we see how experienced school and district leaders use technology in curricular, administrative, and analytical ways to meet the needs of 21st-century learners, educators, and communities. These cases reveal important details addressed by the leadership of these schools and districts that go beyond what they did with technology to include changes in school culture, curriculum, and teaching uses of assessment data, financial considerations, infrastructure, and involvement with the community. *Book Features* Successful models from schools/districts experienced with using technology as a lever for school improvement. Case studies from diverse schools/districts across the country that show what works and how it works. A cross-case analysis that makes it easy to compare individual schools and identify common practices. Barbara B. Levin is a Professor in the Department of Teacher Education and Higher Education and Director of the Teachers Academy at the University of North Carolina at Greensboro. Lynne Schrum is Dean College of Education and Human Services, West Virginia University. Barbara B. Levin and

Lynne Schrum offer their readers the distinct advantage of compressing into a single volume what it took me decades to learn They not only present the big ideas of effective school leadership but bring them alive through case studies that illustrate how those ideas manifest themselves in leaders day to day behaviors I encourage you to use the ideas and practices you find here to leverage technology to create schools in which all students and adults thrive From the Foreword by Dennis Sparks Emeritus Executive Director National Staff Development Council Learning Forward Prepublication Reviews In Leading Technology Rich Schools the authors present a fascinating and exciting set of case studies that provide great insight into the ways leaders can support high level innovation in schools Importantly their focus is on technology that enhances learning and teaching rather than technology as an expensive school ornament A must read for those who study and practice educational leadership Jeffrey S Brooks Associate Professor and Educational Leadership Program Coordinator School of Education Iowa State University author of Black School White School Racism and Educational Mis leadership This book is a precious gift for the vast majority of administrators who desperately need concrete examples of how to create facilitate and sustain technology infused learning environments Scott McLeod Associate Professor and Founding Director CASTLE University of Kentucky These rich illustrations of technology leadership in secondary schools show how a number of complex variables must come together to produce the key outcome of positioning educational technology as a support to teaching and learning Examples of leadership practices that coordinate team members for interdependent work and invite teachers involvement should prove to be a valuable resource to practitioners and also provide insight to policymakers for how they can create supportive conditions for such work Sara Dexter Associate Professor Department of Leadership Foundations and Policy Curry School of Education University of Virginia Leading Technology Rich Schools is a key advance in understanding how technology can best be integrated in today s schools These case studies of effective practice are sure to become required reading for those in leadership positions who are using technology for school improvement Glen L Bull Samuel Braley Gray Professor of Education Curry School of Education University of Virginia The rubber meets the road in this well researched book with detailed stories of exemplary schools and school leaders that have leveraged technology as a key tool to make significant reforms stick Through these vivid case studies Levin and Schrum illuminate a dynamic and complex set of lessons learned to help all school leaders undertake transformations of their schools L Michael Golden CEO Educurious **Children and the Media** Everette E.
