**Emotion Guideline Workbook** Amic G. Ho, 2024-05-28 Manipulating the design process can be challenging for junior design art and creative students. Besides understanding the approaches to managing the design factors with logical thinking, they can lack experience in handling emotional changes and concerns and initiative factors during the design process. As a result, they struggle to practice design and need guidance for enhancing their decision-making, evaluation, judgment, and motivation. This book proposes a set of guiding principles with the intention of assisting the reader in regulating the emotional changes that occur throughout the design process. This book offers practical approaches to those who would like to incorporate emotion in their design processes, which contrasts with previous scholarly research that has mostly focused on the theoretical level. It provides guidance to the reader through the process of adapting to the emotional changes that may occur throughout the design process during their design studies. It contains a literature review, research methods, and a discussion of the strengths and limitations. Featuring printable worksheets and additional tables to use as guidance, this highly practical text allows the reader to gain a full understanding of emotion in the design procedure through active involvement in the process. The Emotion Guideline Workbook is perfect for design art and creative students as well as their instructors, researchers, and other learners who are interested in emotion-driven design. It will also appeal to students and academics in the fields of psychology and education.

Johnson, 2020-09 Given the critical importance of emotional health, happiness, and overall wellbeing, emotional intelligence (EQ) is viewed as one of the most valuable personal resources. There is a growing body of research showing the skills of EQ can help people achieve productive results, be and feel better, improve decision-making, and form stronger relationships. Know Choose Give: A Practical Guide for Personal/Professional Success using the Six Seconds Emotional Intelligence Framework delivers 35 key skills. The program is driven by the Six Seconds model of EQ in Action that includes three important pursuits: Know Yourself Clearly (seeing what you feel and do), Emotions are data, and these competencies allow you to accurately collect that information; Choose Yourself (doing what you mean to do). These competencies help you put your vision and mission into action so you lead on purpose and with full integrity. The facilitator's guide includes a code for one EQ self-assessment, a companion website for additional resources, a hands-on tool to practice EQ entitled Think Feel and Act (TFA) cards, and a suggested Six Seconds training and certification model designed to enhance facilitation skills and implementation of this curriculum.
