The Sacred Path Beyond Trauma Ellen Macfarland, Ph.D., 2008-06-03 One of Graham

Greene's characters famously said I suffer therefore I am suggesting that pain is an inescapable and perhaps incurable part of the human condition But must this be so Ellen Macfarland argues otherwise in *The Sacred Beyond Trauma* Through the use of mythology stories from film and fiction real life examples and her personal history Macfarland shows that healing trauma is indeed possible using rich resources near at hand in nature The book explores major symbols of healing nature that can provide an impetus for personal transformation One of the case studies profiles Monty Roberts a well known horse trainer who overcame significant childhood abuse by working with horses and eventually fostering some forty children alongside his own biological family The key says Macfarland is using these and other natural symbols such as yin yang to balance the tension between trauma and numinosity sacredness transcendence resulting in the creation of a new way of being in the world Understanding this and the book's other nature based symbols can turn the distressed mind into a fertile field of spiritual awareness empowerment and lifelong growth Tools for Transforming Trauma Robert

This book examines literary trauma theory from its foundations to its implementations and new possibilities A n analysis that reconsiders the meaning and value of traumatic experience by demonstrating the diversity of its forms in contemporary American novels in an effort to deepen the discussion of trauma beyond that of the disease driven paradigm in literary criticism today The author's model views trauma and the process of remembering within a framework that emphasizes the multiplicity of responses to an extreme experience and the importance of contextual factors in determining the significance of the event In order to demonstrate this new approach she focuses her discussion on late modern canonical and emergent American novels that deal with trauma In analyzing the narrative methods authors employ to portray suffering she found two

major patterns the use of landscape imagery to convey the effects of trauma and remembering and the use of place as a site that shapes the protagonist's experience and perception of the world
