Space Opera Catherynne M. Valente, 2018-12-18 2019 HUGO AWARD FINALIST BEST NOVEL The Hitchhiker's Guide to the Galaxy meets the joy and glamour of Eurovision in bestselling author Catherynne M Valente's science fiction spectacle where sentient races compete for glory in a galactic musical contest and the stakes are as high as the fate of planet Earth A century ago the Sentience Wars tore the galaxy apart and nearly ended the entire concept of intelligent space faring life In the aftermath a curious tradition was invented something to cheer up everyone who was left and bring the shattered worlds together in the spirit of peace unity and understanding Once every cycle the great galactic civilizations gather for the Metagalactic Grand Prix part gladiatorial contest part beauty pageant part concert extravaganza and part continuation of the wars of the past Species far and wide compete in feats of song dance and or whatever facsimile of these can be performed by various creatures who may or may not possess in the traditional sense feet mouths larynxes or faces And if a new species should wish to be counted among the high and the mighty if a new planet has produced some savage group of animals machines or algae that claim to be against all odds sentient Well then they will have to compete And if they fail Sudden extermination for their entire species This year though humankind has discovered the enormous universe And while they expected to discover a grand drama of diplomacy gunships wormholes and stoic

councils of aliens they have instead found glitter lipstick and electric guitars Mankind will not get to fight for its destiny they must sing Decibel Jones and the Absolute Zeroes have been chosen to represent their planet on the greatest stage in the galaxy And the fate of Earth lies in their ability to rock *Fascist Lizards from Outer Space* Dan Copp,2017-03-10 When Kenneth Johnson's science fiction miniseries *V* premiered in 1983 it netted more than 40 percent of the television viewing audience and went on to spawn a sequel a weekly series novelizations comic books and a remake Yet the 2009 *V* reboot was cancelled in its second season despite a robust premiere Both versions were products of their respective times but the original was inspired by classic works by the likes of Sinclair Lewis and Leo Tolstoy Johnson's predilection for literature and history helped give his telling of *V* a sense of heart and depth that the contemporary version sorely lacked Featuring exclusive interviews with cast and crew this book examines *V*'s cultural impact and considers the future of the franchise

BioWare's Mass Effect Jerome Winter,2022-11-24 The videogame series *Mass Effect* is a remarkable rarity not only for being an original science fictional franchise of recent vintage that has risen to such prominent commercial and critical success in popular culture but also for pushing the canonical boundaries of how science fiction as a genre will be experienced and understood in the future This book analyzes the significance of the game for an understanding of the evolving SF genre and articulates an explanatory framework to limn its landmark reception in videogame history This book both synthesizes the burgeoning body of scholarship on *Mass Effect* for a readership unfamiliar with either the game or the critical conversation on its salient importance while simultaneously for readers already invested in the science fiction and videogame scholarship mounting an extended inquiry as to why *Mass Effect* has served as such a representative milestone in videogame and genre history The book should appeal to veteran science fiction and videogame scholars and students as well as a wide variety of fans consumers gamers and general readers **Handbook of Futures Studies** Roberto Poli,2024-07-05 This insightful

Handbook emphasizes the unique contribution that Futures Studies offers when understanding and managing current situations Contributing authors argue that by learning to examine the future in the present individuals and organizations can expand their abilities to analyze assess and ultimately make better decisions This title contains one or more Open Access chapters *Alien Invasion Comics* Cora Lennox, AI,2025-03-10 *Alien Invasion Comics* explores how comic books have mirrored and shaped our understanding of extraterrestrial life More than just escapist entertainment these visual narratives reflect deep seated anxieties and hopes about the unknown offering cultural commentary on real world issues Did you know that early alien invasion comics often served as allegories for the Cold War reflecting fears of foreign invasion and ideological conflict Further depictions of first contact scenarios frequently mirror real world anxieties about cultural exchange and the potential for misunderstanding The book progresses chronologically tracing the evolution of alien tropes from the Golden Age of comics to contemporary works It examines how social and political events have influenced these narratives analyzing specific comic panels to uncover deeper meanings By studying intergalactic warfare and alien encounters the book reveals

how these fictional stories provide insights into our own values and biases This unique approach makes Alien Invasion Comics a valuable resource for those interested in understanding the intersection of comics science fiction and cultural studies

The Art of Studio Gainax Dani Cavallaro, 2015-01-27 Formed by a small group of university students in the early 1980s Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene And it is fascinating for its unique approach to animation Formal experimentation genre straddling self reflexivity unpredictable plot twists a gourmet palate for stylishness proverbially controversial endings and a singularly iconoclastic worldview are some of the hallmarks This documentation of the studio's achievements provides a critical overview of both the company and its films in depth examinations of particular titles that best represent the company's overall work including television series such as Nadia The Secret of Blue Water and Neon Genesis Evangelion and feature films such as Royal Space Force The Wings of Honneamise and Gunbuster vs Diebuster Each chapter highlights the contribution made by a specific production to the company's progress
