You will soon realize that every decision you've made was more irrational than you ever imagined. In this book, you'll uncover how sellers hijack your emotions, the strategies they use to make you buy without you even realizing it.

The 10 Laws of Persuasion

By understanding these principles, you'll not only learn how to spot manipulation but also how to use these tactics for your own advantage.

The Science Behind Selling

Discover how sellers design your brain's emotional response using psychology, neuroscience, and yes, even quantum physics. You'll learn how the laws of physics, like Newton's Third Law, and the concept of mirroring are applied to manipulate your emotions and decisions.

Master the Traps

From seductive advertising to price tricks, you'll develop the tools to navigate every sales pitch with clarity and confidence. This book dives deep into how sellers craft irresistible offers by playing on your subconscious mind. The mirroring effect that dating coaches often talk about originates from Newton's Third Law of Motion. But this is just the beginning. In the modern world, even quantum mechanics influences how we respond to others. Your behavior shifts the moment someone observes you; how does that change the dynamics of a sale?

What You Will Gain

Insight into your consumer habits. Understand why you make purchases you don't need and how to break free from these patterns.

The Power of Persuasion
