The Manipulators Peter J. Hasson, 2020-02-04 The dawn of the digital age was supposed to be a new era when everybody would have a voice and battle it out in the marketplace of ideas intellectual democracy at the touch of a keyboard Social media offered a way for conservatives to outflank the leftist groupthink that dominated academia the media and the political establishment But as investigative reporter Peter J Hasson shows in his explosive new book The Manipulators that s no longer the case Instead Big Tech companies have become enforcers of intellectual conformity promoting leftist ideas punishing dissent and dictating politically correct opinions Big Tech s grip on the levers of information seems unbreakable Hasson working with sources deep inside the tech giants presents a chilling account of companies that relish their coercive power and aren t shy about using it In The Manipulators you ll learn How tech companies skew search results and fact checks in favor of left wing ideas and liberal news sources How Google employees organize anti Trump Resistance on company time and with company resources How Facebook gives special privileges to liberal publications How Big Tech employees collude with liberal journalists and left wing activists to dictate who can and can t have a voice online How Twitter which once touted itself as the free speech wing of the free speech party reinvented itself as a liberal news company How pro abortion extremists work with Big Tech to shut down pro life speech online Big Tech has become the greatest threat to free speech and free thought in America But Big Tech is not invincible It is still vulnerable to conservative and consumer pressure though not for long if Democrats have their way Peter Hasson provides a frightening look at the concentrated power of Big Tech its extraordinary intellectual intolerance and its determination to silence competing voices and even dictate our thoughts The Manipulators is a warning about rampant political censorship that will only get worse unless Big Tech meets big opposition
