Research on the Education of Young Children Bernard Spodek, Olivia N. Saracho, 2014-01-27 The Handbook of Research on the Education of Young Children is the essential reference on research on early childhood education throughout the world This singular resource provides a comprehensive overview of important contemporary issues as well as the information necessary to make informed judgments about these issues The field has changed significantly since the publication of the second edition and this third edition of the handbook takes care to address the entirety of vital new developments A valuable tool for all those who work and study in the field of early child Bearing Witness Wendy Griswold, 2018-06-05 Greed

frustrated love traffic jams infertility politics polygamy These together with depictions of traditional village life and the

impact of colonialism made familiar to Western readers through Chinua Achebe's writing are the stuff of Nigerian fiction. Bearing Witness examines this varied content and the determined people who against all odds write, publish, sell, and read novels in Africa's most populous nation. Drawing on interviews with Nigeria's writers, publishers, booksellers, and readers, surveys, and a careful reading of close to 500 Nigerian novels from lightweight romances to literary masterpieces, Wendy Griswold explores how global cultural flows and local conflicts meet in the production and reception of fiction. She argues that Nigerian readers and writers form a reading class that unabashedly believes in progress, rationality, and the slow but inevitable rise of a reading culture. But they do so within a society that does not support their assumptions and does not trust literature, making them modernists in a country that is simultaneously premodern and postmodern. Without privacy, reliable electricity, political freedom, or even social toleration of bookworms, these Nigerians write and read political satires, formula romances, war stories, complex gender fiction, blood and sex crime capers, nostalgic portraits of village life, and profound explorations of how decent people get by amid urban chaos. Bearing Witness is an inventive and moving work of cultural sociology that may be the most comprehensive sociological analysis of a literary system ever written. *The Oxford Handbook of Twentieth-Century American Literature* Leslie Bow, Russ Castronovo, 2022-08-11. An essential and field-defining resource, this volume brings fresh approaches to major US novels, poetry, and performance literature of the twentieth century. With sections on structures, movements, attachments, and imaginaries, this handbook brings a new set of tools and perspectives to the rich and diverse traditions of American literary production. The editors have turned to leading as well as up-and-coming scholars in the field to foreground methodological concerns that assess the challenges of transnational perspectives, critical race and indigenous studies, disability and care studies, environmental criticism, affect studies, gender analysis, media and sound studies, and other cutting-edge approaches. The 20 original chapters include the discussion of working-class literature, border narratives, children's literature, novels of late capitalism, nuclear poetry, fantasies of whiteness, and Native American, African American, Asian American, and Latinx creative texts. **The Child's World Readers Manual** Sarah Withers, Mrs. Hetty S.
