Speculations On Speculation Speculations On Speculation:

Speculations on Speculation James E. Gunn, Matthew Candelaria, 2005 Science fiction is a field of literature that has great interest and great controversy among its writers and critics This book examines the roots history development current status and future directions of the field through articles contributed by well respected science fiction writers teachers and critics The articles speculate on what is science fiction is science fiction serious literature which writers are considered good science fiction writers and where the genre of science fiction is headed with 21st century writers Contributors include Brian W Aldiss Kathryn Cramer Samuel R Delany David G Hartwell Ursula K Le Guin Barry N Malzberg Darko Suvin Michael Swanwick and many other outstanding authors Examining all genres and subgenres of science fiction writing this book provides differing viewpoints on science fiction making it a great basis for dynamic classroom discussions *Hidden Collective Factors in Speculative Trading* Bertrand M. Roehner, 2013-03-14 Besides analyzing stock markets the book considers a wide range of speculative markets for various items such as real estate commodities postage stamps antiquarian books In particular it highlights the following regularities i During a speculative episode the price of expensive items increases more than the price of less expensive items This is referred to as price multiplier effect ii Price peaks for stocks and most commodities on average follow a well defined pattern that we call the sharp peak flat through pattern in contrast real estate price peaks follow a flat peak pattern iii The stocks whose prices experience the strongest increase during a bull market better resist during the subsequent bear market an effect referred to as the resilience pattern Such regularities pave the way for a mathematical theory of speculation Being mainly empirical the book is easy to read and does not require technical prerequisites in finance economics or mathematics *Speculative Pedagogies* Antero Garcia, Nicole Mirra, 2023 Can you imagine future learning environments devoid of the systemic inequities that stifle student learning opportunities and teacher decision making in most classrooms today This volume offers the necessary steps playful participatory historically informed that are required to forge a pathway from the present U S educational landscape to a freer tomorrow The authors use speculative approaches to teacher education and student learning to intentionally design beyond the boundaries of traditional research and practitioner resources that seek to fix current schooling conditions Building from visionary organizing and artistic traditions that have captured the popular imagination this volume suggests new forms of engagement for diverse learners It pragmatically explores how to work toward radical new spaces of possibility for learning and teaching Chapters include a range of learning contexts from problem solving in complex video game settings to innovative world building alongside young people in schools and communities Readers will be inspired to completely rethink what is possible when it comes to justice oriented culturally responsive education Book Features A collection of over 40 contributors explore speculative education across a range of research settings Examples of digital learning that include videogames and online collaboration Multiple chapters that feature co authored research and innovation with students and teachers Innovative

Speculative Affect Charmaine Eddy, 2025-03-10 *Speculative Affect Objects and Emotions* is an edited collection examining the intersection between affect and objects in the fields of literature cultural theory and cultural production The word speculative in the title references recent philosophical and cultural work in the speculative turn a philosophical field that includes speculative realism new materialisms thing theory or object oriented ontology where the object is analyzed apart from human consciousness and human use value By linking this return to an ontological object realism beyond human consciousness with affect theory s reimagining of corporeality by exploring attachments bodily sensations autonomic responses and emotions as embodied forces beyond conscious knowing this work addresses the last frontier in radically reconfiguring the status of human life the division and hierarchy between so called inert material and the apparent superiority of humanity

Speculative Philosophy Donald Phillip Verene, 2009-04-16 In this original and illuminating work the reader is invited to approach philosophy as an activity that can instruct delight and move On this view philosophy can be seen as a key to human education a mastery of humane letters and a part of the repulic of the liberal arts Embracing this approach to philosophy Verene argues involves moving beyond modern philosophy s analytical encounter with experience one that emphasizes argument and criticism at the expense of the Socratic search for self knowledge Relying on insights from Vico and Hegel Verene introduces a new sense of reason one that sees the True as the whole and that connects reason to the ancient sense of speculation Reflection and criticism are given their due but the reorientation of philosophy toward the speculative grasp of the whole of things allows memory imagination and dialectical ingenuity to take on philosophical form In the end this work show how speculation symbolic form metaphor poetry and rhetoric are natural parts of philosophical thinking

Nordic Speculative Fiction Jyrki Korpua, Aino-Kaisa Koistinen, Hanna-Riikka Roine, Marta Mboka Tveit, 2024-12-20 This volume brings together scholarly theories and practices on speculative fiction from the Nordic countries including Denmark Finland Iceland Norway and Sweden that are all rooted in similar values culture and history yet are independent and unique societies The book exhibits both the convergences and the diversity of the Nordics in fiction and fandom as well as in research It traces the roots of Nordic speculative fiction how it has developed over time and how the changes in Nordic environments and societies caused by overhanging shared global issues such as climate change mass migration and technological acceleration find space in speculative practices The first of its kind this book allows for deeper insights into the unique characteristics that make Nordic literature and art recognisable and allows for a better understanding of the place of the Nordics within wider global culture systems The chapters range from literary critiques film and television studies creative works by three Nordic creative writers transcultural text comparisons and contributions on speculative art to theoretical and methodological discussions on fandom worldbuilding and semantics Part of the *Studies in Global Genre Fiction* series this book contributes to connecting Nordic speculative fiction scholarship to the wider global

community within the field It will be of interest to scholars and general enthusiasts of speculative fiction and those with interest in Nordic fiction film and television studies literary culture or media studies comparative literature and cultural history or art based research *Speculative Communities* Aris Komporozos-Athanasiou, 2022-01-17 In *Speculative Communities* Komporozos Athanasiou examines the ways that financial speculation has moved beyond markets to shape fundamental aspects of our social and political lives As ordinary people make exceptional decisions such as the American election of a populist demagogue or the British vote to leave the European Union they are moving from time honored and tested practices of governance toward the speculative promise of a different kind of future Even our methods of building community have shifted to the speculative realm as social media platforms enable and amplify alternative visions of the present and future these are the speculative communities that now shape our personal and political realities For Komporozos Athanasiou to speculate means increasingly to connect to endorse uncertainty preemptively and often daringly as a means of social survival Finance has thus become the model for society writ large These financial systems have taken a notable turn in our current era however Contemporary capitalism sees the risk taking entrepreneurial person being refashioned as a politically disoriented speculative subject who embraces the future's radical uncertainty rather than averting it As Komporozos Athanasiou shows virtual marketplaces new social media and dating apps function as finance's speculative infrastructures leading to a new type of imagination across economy and society

After the "Speculative Turn": Realism, Philosophy, and Feminism Katerina Kolozova, Eileen A. Joy, 2016 Recent forms of realism in continental philosophy that are habitually subsumed under the category of speculative realism a denomination referring to rather heterogeneous strands of philosophy bringing together object oriented ontology non standard philosophy or non philosophy the speculative realist ideas of Quentin Meillassoux and Marxism have provided grounds for the much needed critique of culturalism in gender theory and the authority with which post structuralism has dominated feminist theory for decades This publication aims to bring forth some of the feminist debates prompted by the so called speculative turn while demonstrating that there has never been a niche of speculative realist feminism Whereas most of the contributions featured in this collection provide a theoretical approach invoking the necessity of foregrounding new forms of realism for a feminism beyond gender as culture some of the essays tackle only to invite a feminist critical challenge to its paradigm while others refer to some extent to non philosophy or the new materialisms but are not reducible to either of the two We have invited essays from intellectual milieus outside the Anglo Saxon academic center bringing together authors from Serbia Slovenia France Ireland the UK and Canada aiming to promote feminist internationalism rather than a generous act of cultural inclusion
