Speech For Memorial Service:

We Are What We Remember Laura Mattoon D'Amore, Jeffrey Meriwether, 2013-01-16 Commemorative practices are revised and rebuilt based on the spirit of the time in which they are re created Historians sometimes imagine that commemoration captures history but actually commemoration creates new narratives about history that allow people to interact with the past in a way that they find meaningful As our social values change race gender religion sexuality class our commemorations do too We Are What We Remember The American Past Through Commemoration analyzes current trends in the study of historical memory that are particularly relevant to our own present our biases our politics our contextual moment and strive to name forgotten overlooked and denied pasts in traditional histories Race gender and sexuality for example raise questions about our most treasured myths where were the slaves at Jamestowne How do women or lesbians protect and preserve their own histories when no one else wants to write them Our current social climate allows us to question authority and especially the authoritative definitions of nation patriotism and heroism and belonging How do we uncommemorate things that were mis commemorated in the past How do we repair the damage done by past commemorations The chapters in this book contributed by eighteen emerging and established scholars examine these modern questions that entirely reimagine the landscape of commemoration as it has been practiced and studied before *The Four Speeches Every Leader Has to Know* Bård Norheim, Joar Haga, 2019-05-21 This book provides a rhetorical manual for political and business leaders to motivate followers even in times of hardship It covers the fine art of persuasion and argues that there are four speeches every leader has to know the opening speech the executioner speech the consolation speech and the farewell speech The authors explore how leaders could speak in order to appear credible to an audience and they argue that the leader has to take on suffering and give meaning to the suffering people experience The book analyzes speeches from a wide variety of speakers including Sir Winston Churchill Barack Obama Nelson Mandela and Angela Merkel and ends with a rhetorical dictionary for leaders to help readers familiarize themselves with helpful terms from rhetorical theory Federal Register , 1980-12 *When Sorrow Comes* Melissa M. Matthes, 2021-04-13 Since World War II Protestant sermons have been an influential tool for defining American citizenship in the wake of national crises In the aftermath of national tragedies Americans often turn to churches for solace Because even secular citizens attend these services they are also significant opportunities for the Protestant religious majority to define and redefine national identity and in the process to invest the nation state with divinity The sermons delivered in the wake of crises become integral to historical and communal memory it matters greatly who is mourned and who is overlooked Melissa M Matthes conceives of these sermons as theo political texts In *When Sorrow Comes* she explores the continuities and discontinuities they reveal in the balance of state power and divine authority following the bombing of Pearl Harbor the assassinations of JFK and MLK the Rodney King verdict the Oklahoma City bombing the September 11 attacks the Newtown shootings and the Black Lives Matter movement She argues that

Protestant preachers use these moments to address questions about Christianity and citizenship and about the responsibilities of the Church and the State to respond to a national crisis She also shows how post crisis sermons have codified whiteness in ritual narratives of American history excluding others from the collective account These civic liturgies therefore illustrate the evolution of modern American politics and society Despite perceptions of the decline of religious authority in the twentieth century the pulpit retains power after national tragedies Sermons preached in such intense times of mourning and reckoning serve as a form of civic education with consequences for how Americans understand who belongs to the nation and how to imagine its future

Funeral and Memorial Service Readings, Poems, and Tributes Rachel R. Baum, 1999-01-01 Words can fail even the most articulate when called upon to speak at a loved one's funeral or memorial occasion The bereaved desires to say something meaningful yet services are often held so quickly that there is little time to find something appropriate at the library or bookstore This book is a collection of poetry and prose appropriate for reading at a funeral or memorial service To assist the reader in finding a suitable passage the book is divided into eleven chapters There are tributes for mothers fathers children spouses and soulmates friends siblings and other close relatives soldiers and victims of war or violence pets and general readings appropriate for men women or any loved one These selections will also prove helpful for clergy counselors and hospice hospital and funeral professionals Appendices list resources and support organizations and each selection is indexed by author title and first line A special additional index references pieces by famous uses such as in a film novel or celebrity's funeral so readers can locate a passage they remember from its context

Combating Hate Billie Murray, 2022-05-03 The United States has a hate problem In recent years hate speech has led not only to deep division in our politics but also to violence murder and even insurrection And yet established constitutional jurisprudence holds that all speech is protected as content neutral and that the proper democratic response to hateful expression is not regulation but more speech So how can ordinary citizens stand up to hate groups when the state will not In *Combating Hate* Billie Murray proposes an answer to this question As a participant in anti racist and anti fascist protests including demonstrations against the Ku Klux Klan neo Nazis and the Westboro Baptist Church Murray witnessed firsthand the limitations of the more speech approach as well as the combative tactics of anti fascist activists She argues that this latter group commonly known as antifa embodies a radically different strategy for combating hate one that explodes the myth of content neutrality and reveals hate

speech to be a tactic of fascist organizing with very real highly anti democratic consequences Drawing on communication theory and this on the ground experience Murray presents a new strategy which she calls allied tactics rooted in the commitment to affirm support and even protect those who are the victims of hate speech Engaging and sophisticated Combating Hate contends that there are concrete ways to fight hate speech from the front lines Murray s urgent argument that we reconsider how to confront and fight this blight on American life is essential reading for the current era
