Space-Time Perspectives on Early Colonial Moquegua Prudence M. Rice, 2013-11-15 In this rich study of the construction and reconstruction of a colonized landscape Prudence M Rice takes an implicit political ecology approach in exploring encounters of colonization in Moquegua a small valley of southern Peru Building on theories of spatiality spatialization and place she examines how politically mediated human interaction transformed the physical landscape the people who inhabited it and the resources and goods produced in this poorly known area Space Time Perspectives on Early Colonial Moquegua looks at the encounters between existing populations and newcomers from successive waves of colonization from indigenous expansion states Wari Tiwanaku and Inka to the foreign Spaniards and the way each group re spatialized the landscape according to its own political and economic ends Viewing these spatializations from political economic and religious perspectives Rice considers both the ideological and material occurrences Concluding with a special focus on the multiple space time considerations involved in Spanish inspired ceramics from the region Space Time Perspectives on Early Colonial Moquegua integrates the local and rural with the global and urban in analyzing the events and processes of colonialism It is a vital contribution to the literature of Andean studies and will appeal to students and scholars of archaeology historical archaeology history ethnohistory and globalization *Space-time Perspectives on Early Colonial Moquegua* Prudence M. achieved through medicine medical intervention and care giving are fundamentals of human societies However archaeological investigations of medicine and care have tended to examine the obvious and explicit manifestations of medical treatment as discrete practices that take place within specific settings rather than as broader indicators of medical worldviews and health beliefs This volume highlights the importance of medical worldviews as a means of understanding healthcare and medical practice in the past The volume brings together ten chapters with themes ranging from a bioarchaeology of Neanderthal healthcare to Roman air quality decontamination strategies at Australian quarantine centres to local resistance to colonial medical structures in South America Within their chapters the contributors argue for greater integration between archaeology and both the medical and environmental humanities while the Introduction presents suggestions for future engagement with emerging discourse in community and public health environmental and planetary health genetic and epigenetic medicine exposome studies and ecological public health microbiome studies and historical disability studies The chapters in this book were originally published as a special issue of World Archaeology

Money, Coinage and Colonialism Nanouschka Myrberg Burström, Fleur Kemmers, 2024-10-10 This book explores coinage and related object types as an important form of material culture that is crucial to interrogating interactions between coloniser and colonised Money Coinage and Colonialism is a much overdue treatment of coinage and money in debates around ancient and recent colonial practices It argues that coinage offers unique opportunities to study interactions and effects of the meeting between colonisers and colonised as well as the economic political and ideological interactions between colonial communities and the state of origin It is argued that the study of coins and other means of exchange may reveal less apparent and under communicated processes values and discourses in the study of colonial environments and projects with commonalities informing a larger global history approach A broad picture is built from numerous case studies spanning from Classical Greek colonies to European colonial enterprises of the Modern period exploring colonial histories settings ideology and resistance Particular attention is paid to the role of coins in identity construction to ambiguity hybridity and creolisation of monetary objects in colonial contexts and to specific uses of coins that tell of violence oppression and resistance as well as of networks acculturation and globalisation Composed of chronologically broad and diverse case studies from colonial contexts this book is for researchers in colonial and post colonial archaeology as well as archaeological and cultural historical numismatics
