Spear Of Mars The Future At War:

The Future at War Reginald Bretnor,1980 **The Work of Reginald Bretnor** Scott Alan Burgess,1989 Science Fiction and Fantasy Reference Index, 1878-1985: Subject entries Halbert W. Hall,1987 **St. James Guide to Science Fiction Writers** Jay P. Pederson,1996 Concise discussions of the lives and principal works of prominent science fiction authors written by subject experts **Science Fiction and Fantasy Series and Sequels: Books** Tim Cottrill,Martin Harry Greenberg,Charles Gordon Waugh,1986 *Science Fiction and Fantasy Reference Index, 1878-1985: Author entries* Halbert W. Hall,1987 **Future Dark 1: Aliens** Trung Nguyen,2015-05-29 This is the first book in the Future Dark series In 2194 Mars is colonized The descendants of 21st century industrialist Elon Musk founder of Musk City Mars form the ruling elite on the Red Planet The Musk clan is about to face a historical event as one of their own Lazar Musk Whittaker a Biomech embarks on an ambitious undertaking to change the course of human evolution The war of the species and the fracture within the Musk clan begin when four tombs are discovered encased in an asteroid in a mining facility on Phobos one of Mars two moons As the Martians soon discover these tombs contain the bodies of four aliens In the future Earth is a multi humanoid society of Naturalopists natural humans Biomechs biological mechanical beings cyborgs part machine part human milbots military robots cilbots civilian robots and wobots worker robots I liked this novel a lot The plot of this novel is its strongest element The author can put together a very strong plot with plenty of twists and turns and a good ending There are some very suspenseful moments and levels of tension are created which at their best evoke the sensations of a fine horror story And the author by and large appears to have done his her homework The novel also has sociological touches which work well especially its view of futuristic mega capitalism The venality blindness and excess of Udel Whittaker and his flunkies is very believable and adds depth to the story The manner of day to day life both in space and on the colonies of Mars seems well researched and is often fascinating to the lay reader Writers Guild of Alberta Studies in Short Fiction ,1981 **Nuclear Holocausts** Paul Brians,1987 The anxiety caused by the thought of nuclear war causes some people to avoid the topic altogether some to despair and others to place unwarranted confidence in scientific or governmental control However the vivid characters and realistic settings of fiction can bring home the impact of a nuclear war in a way that makes the topic difficult to avoid and allows readers to confront their fears and phobias This bibliography study is the only compliation of its kind to deal exclusively with nuclear war in fiction The first five chapters provide a historical survey of the development of the nuclear war theme and a study of the causes and aftermath of nuclear war as treated in literature In addition Brians considers the significant failure of some works to confront the subject and the success of others as educational tools With a clear focus on the subject of war this work does not deal with such related topics as nuclear accidents reactor disasters or near war situations The bulk of the book is given over to the detailed annotated bibliography which consists of over 800 entries with associated checklists Intended to provide scholars librarians and general readers with

ready access to a great variety of information about his body of writing the bibliography lists both hardcover and paper editions of books and the reprinting of each short story and corrects several errors in other standard reference works In his critical analysis and through the annotations in the bibliography Brians attempts to improve our understanding of cultural attitudes toward the dangers posed by the ever present reality of nuclear weaponry Jacket **Index to Science Fiction Anthologies and Collections** William Contento,1978
