The Plot To Save Socrates:

The Plot to Save Socrates Paul Levinson, 2006-02-07 Paul Levinson's astonishing new SF novel is a surprise and a delight. In the year 2042 Sierra, a young graduate student in Classics, is shown a new dialog of Socrates recently discovered in which a time traveler tries to argue that Socrates might escape death by travel to the future. Thomas, the elderly scholar who has shown her the document, disappears and Sierra immediately begins to track down the provenance of the manuscript. The trail leads her to a time machine in a gentlemen's club in London and in New York and into the past and to a time traveler from her future posing as Heron of Alexandria in 150 AD. Complications, mysteries, travels, and time loops proliferate as Sierra tries to discern who is planning to save the greatest philosopher in human history or to do so herself. And she finds that time travel raises more questions than it answers. Fascinating historical characters from Alcibiades of the honeyed thighs and Appleton, the great 19th century American publisher, to Socrates himself appear. With surprises in every chapter, Paul Levinson has outdone himself in *The Plot to Save Socrates*.

SETI: Another Signal In Sagittarius Ian Beardsley, 2013-11 It is proposed that extraterrestrials left their thumbprint in our physics. A message is found embedded in our physics as well and it may indicate we are here for a reason. Where the message comes from is calculated and it turns out to be in the same region of space as the SETI Wow Signal.

On the Verge of Tears Michele Byers, David Lavery, 2010-04-16 The idea for this book began with David Lavery's 2007 column for flowtv.org *The Crying Game: Why Television Brings Us to Tears*, asked us to consider that age-old mystery, tears. The respondents to David's initial survey, Michele Byers among them, didn't agree on anything. Some cried more over film, some television, some books, some felt their tears to be a release, others to be a manipulation. They did agree, however, as did the readers who responded to the column, that crying over stories and even things is something that is a shared and familiar cultural practice. This book was born from that moment of recognition. *On the Verge of Tears* is not the first book to think about crying. Tom Lutz's *Crying: The Natural* nor is its approach psychological, sociological, as is Nelson's. It does not limit itself to very contemporary popular culture as does Jenkins' book or material culture as does Schwenger's study. What *On the Verge of Tears* offers are personal, cultural, and political ruminations on the tears we shed in our daily

engagements with the world and its artifacts The essays found within are often deeply personal but also have broad implications for everyday life The authors included here contemplate how and why art music film literature theatre theory and material artifacts make us weep They consider the risks of tears in public and private spaces the way tears implicate us in tragedy comedy and horror On the Verge of Tears does not offer a unified theory of crying but instead invites us to imagine tears as a multi vocal language we can all in some manner understand

Ancient Greece and Rome in Modern Science Fiction Ross Clare,2022-11-24 Ancient Greece and Rome in Modern Science Fiction introduces and analyses the reception of classical antiquity in contemporary science fiction By using up to date methods from classical reception theory science fiction analysis and fictional world studies the book will help furnish the reader s understanding of the ways in which the literature culture history and mythology of ancient Greece and Rome are appropriated and represented across multiple media platforms in the science fiction genre today The book will therefore serve as an entry point into several areas of study the reception of classics in popular culture antiquity in modern media the uses of the ancient world in science fiction and broader science fiction criticism The chapters structured by medium principally offer a roughly chronological overview of that medium and its treatment of ancient history mythology literature and culture An abundance of case studies from literature film and television and videogames including Star Trek Battlestar Galactica Fallout New Vegas the Mass Effect franchise and Assassin s Creed show how classical antiquity is reused encountered re encountered by creators and consumers of the present how we bounce off it and it bounces off us and how this reciprocation creates new visions of Greece and of Rome

Terror at the Sound of a Whistle Caroline Shannon Davenport,2024-09-02 Here Caroline Davenport shares the intimacies of her childhood in post war Ohio She portrays a purely distinct household several notches away from normal strange yet familiar and just beyond her storytelling beyond the innocent horizon we can infer all kinds of hardship and villainy Meanwhile Caroline and her closest friend thrive in the luxurious imagination of pre adolescence As they attend school and learn how to dodge its worst lessons they also acquire forbidden knowledge that weighs on and transforms their dreams More than anything this well conceived memoir shows what children despise what they hope for what they do and say when adults aren t looking From heartbreak to hope Edenic bliss to terrible grief Davenport shows how children struggle to make sense of senselessness and find a way to live even when the world presses against them John Mauk author of *Field Notes for the Earthbound*
