Tok Trending Primer:

Backing The Bold: A Primer On Early-stage Venture Capital In Southeast Asia Paulo Joquino, 2022-09-20 Backing the Bold is a primer on the venture capital industry business and profession in Southeast Asia. The goal of the book's thirteen chapters has initially been to guide students of the Insignia Ventures Academy Asia's first experiential venture capital accelerator in their exploration of the venture capital industry and profession specifically in the context of Southeast Asia's startup ecosystem and from the perspective of Insignia Ventures and its portfolio founders. Rather than being a book in the traditional sense of the word, such an origin and context for Backing the Bold has inevitably made this book a dynamic piece of literature continuously growing and improving thanks to every new group of people who become part of the VC accelerator as organizers, mentors, or participants. Now in print and in distribution, this first edition is available for all as a snapshot of Backing the Bold's progress as a continuously evolving repository of insights, best practices, and frameworks. It is for readers of any background or motivation to gain a better understanding of the venture capital investment process, portfolio management, and profession in the context of Southeast Asia's fast-growing technology markets. [TikTok and Youth Cultures](#) Crystal Abidin, 2025-11-04 Using anthropological methods to produce deep and insightful ethnographies about TikTok and its core users, TikTok and Youth Cultures will help readers develop a critical understanding of TikTok's impact on society, its place in the social media landscape, and its cultural relevance around the world. [American Popular Music and Its Business in the Digital Age](#) Music Licensing Consultant Rick Sanjek, 2024-07-18 As the long-awaited sequel to American Popular Music and Its Business: The First 400 Years, this book offers a detailed and objective history of the evolution and effect of digital technology from 1985 through 2020 on all segments of the popular music business, from CDs and stadium tours to TikTok and the effects of the COVID-19 pandemic, with particular emphasis on the relationship between the creators, the consumers, and the business professionals who form the three major axes of the industry. Author Rick Sanjek, a 50-year industry veteran, combines the knowledge acquired during his decades of experience with scholarly research to create a compelling narrative of the events, economics, and inner workings of the modern music business. [Research Outlook, Innovations & Research Trends in Science & Technology](#) Prof. S. S. Rajput, Prof. Dr. Zeliha Selamoglu, Dr. Prashant P. Chaudhari, Mrs. Priyanka Gupta, 2020-10-25 This book is focused predominantly on academicians, research scholars, those belonging to science and engineering, managers, scientists, technicians, and other professionals in the field of qualitative research. This book is comprehended from different sources of research in Science and Technology. On the first occasion, the task of providing researchers with a broad view of the relationship between science and technology. The second reason for writing the book was the need to fill a gap in academics and research. While many excellent books, documents, and articles exist for innovative practices, we have not found a work in which we can properly understand the content that the researcher needs to understand. So, after much deliberation, we decided to collect all quality efforts in one string. At the most basic level, this book

is trying to show research scholars what science technology and innovations are all about It cannot study or gain knowledge of that part and is at a level that most researchers should find clear and understandable Our goal was to develop content that will help researchers who are beginning to use innovative practices We hope to meet the needs of academicians research scholars who are being encouraged to incorporate more reading and writing in the field of science and technology In summary this book is targeted to the needs of individuals engaged in quality research activities in science and technology Our goal is to present the topics of creativity and innovation to this audience in a way that enables them to incorporate new skills into their daily work We would like to thank all the contributors who have made the production of this book so fascinating and enjoyable Their scholarship and dedicated commitment and motivation to getting it right are the keys to the book s quality and we greatly appreciate their good nature over many months in the face of our editorial demands and time limits We are also grateful for using their texts ideas and critical remarks We would also like to thank Prof Dr Nilam N Ghuge Prof Dr D Ayub Khan Dawood Prof Dr Vilas A Pharande all reviewers and all authors for their help in consolidating the interdisciplinary of the book We are grateful to all the 18 institutions for their support It will not be possible to bring out this edition
