Stanley, 2008-12-30 Hip Hop literature also known as urban fiction or street lit is a type of writing evocative of the harsh realities of life in the inner city Beginning with seminal works by such writers as Donald Goines and Iceberg Slim and culminating in contemporary fiction autobiography and poetry Hip Hop literature is exerting the same kind of influence as Hip Hop music fashion and culture Through more than 180 alphabetically arranged entries this encyclopedia surveys the world of Hip Hop literature and places it in its social and cultural contexts Entries cite works for further reading and a bibliography concludes the volume Coverage includes authors genres and works as well as on the musical artists fashion designers directors and other figures who make up the context of Hip Hop literature Entries cite works for further reading and the encyclopedia concludes with a selected general bibliography Students in literature classes will value this guide to an increasingly popular body of literature while students in social studies classes will welcome its illumination of American cultural diversity *Conjuring Culture* Theophus H. Smith, 1995-11-09 This book provides a sophisticated new interdisciplinary interpretation of the formulation and evolution of African American religion and culture Theophus Smith argues for the central importance of conjure a magical means of transforming reality in black spirituality and culture Smith shows that the Bible the sacred text of Western civilization has in fact functioned as a magical formulary for African Americans Going back to slave religion and continuing in black folk practice and literature to the present day the Bible has provided African Americans with ritual prescriptions for prophetically re envisioning and thereby transforming their history and culture In effect the Bible is a conjure book for prescribing cures and curses and for invoking extraordinary and Divine powers to effect changes in the conditions of human existence and to bring about justice and freedom Biblical themes symbols and figures like Moses the Exodus the Promised Land and the Suffering Servant as deployed by African Americans have crucially formed and reformed not only black culture but American society as a whole Smith examines not only the religious and political uses of conjure but its influence on black aesthetics in music drama folklore and literature The concept of conjure he shows is at the heart of an indigenous and still vital spirituality with exciting implications for reformulating the next generation of black studies and black theology Even more broadly Smith proposes conjuring culture can function as a new paradigm for understanding Western religious and cultural phenomena generally Timing the Future Metropolis Peter Ekman, 2024-11-15 Timing the Future Metropolis an intellectual history of planning urbanism design and social science explores the network of postwar institutions formed amid specters of urban crisis and renewal that set out to envision the future of the American city Peter Ekman focuses on one decisive node in the

network the Joint Center for Urban Studies founded in 1959 by scholars at Harvard and MIT Through its sprawling programs of organized research its manifold connections to universities foundations publishers and policymakers and its years of consultation on the planning of a new city in Venezuela Ciudad Guayana the Joint Center became preoccupied with the question of how to conceptualize the urban future as an object of knowledge Timing the Future Metropolis ultimately compels a broader reflection on temporality in urban planning rethinking how we might imagine cities yet to come and the consequences of deciding not to
