

# 300 creative writing prompts for kids

Imagine a giant box is delivered to your front doorstep with your name on it. What's inside and what happens when you open it?

Write a short story about what it might be like if you woke up one morning with a mermaid tail.

Write about what would it be like if you had an alligator as a pet.

If you were in charge of the whole world, what would you do to make the world a happier place?

Imagine that dogs take over the world. What do they make the humans do?

Write about 3 places you would like to travel someday. What do these three places have in common?

Write a poem that starts with the word "if".

How do you feel when someone takes something of yours without asking? What is a good way to deal with it when that happens?

Imagine you walk out your front door one morning and it is raining popcorn! What do you do?

*Reading and Writing Pathways through Children's and Young Adult Literature* Alicia Curtin, 2022-07-29 This thought-provoking book will provide masters, students, teachers, and researchers with a toolkit and theoretical framework for teaching literacy through children's literature. It features innovative ideas for developing student and teacher experiences with literature and popular culture texts in the classroom, providing practical examples and teaching aids throughout. Taking a collaborative approach, Curtin explores how teachers and learners can engage with literature and its authors for the development of literacy in classroom practice. Connecting reader and writer identities and worlds through interviews with and suggested classroom activities from authors themselves, this text combines author, teacher, and learner perspectives in the development of creative pedagogies that extend understandings of literacy beyond reading, writing, and text. Exploring fairy tales, comic books, and graphic novels, children living in literature, i.e. texts which portray children, their lives, and experiences, popular culture, young adult fiction, and non-fiction, and digital texts such as blogs, etc., this text develops a sociocultural understanding of literacy as a lived and contextually dependent practice where meaning is derived through relationships between people, settings, and culture. Different contexts for literacy are explored, including reading and writing strategically to learn about literacy and literature widely for personal purposes and deeply to transform understanding. Short 2011. This text will be an invaluable resource for teachers, researchers, or anyone interested in reading and writing stories. The author interviews will also be of particular interest to older learners themselves as a way to develop their understanding of their own reading and writing practices. Pedagogies can be adapted to any age group ranging

Curating Access Amanda Cachia, 2022-09-14 This book is an interdisciplinary collection of twenty four essays which critically examine contemporary exhibitions and artistic practices that focus on conceptual and creative aspects of access Oftentimes exhibitions tack on access once the artwork has already been executed and ready to be installed in the museum or gallery But what if the artists were to ponder access as an integral and critical part of their artwork Can access be creative and experimental And furthermore can the curator also fold access into their practice while working collaboratively with artists considering it as a theoretical and practical generative force that seeks to make an exhibition more engaging for a wider diversity of audiences This volume includes essays by a growing number of artists curators and scholars who ponder these ideas of ad hoc experimental and underground approaches within exhibition making and artistic practices It considers how through these nascent exhibition models and art practices enhanced experiences of access in the museum can be a shared responsibility amongst museum workers curators and artists in tandem with the public so that

access becomes a zone of intellectual and creative accommodation rather than strictly a discourse on policy The book provides innovative case studies which provide a template for how access might be implemented by individuals artists curators museum administrators and educators given the growing need to offer as many modalities of access as possible within cultural institutions This book shows that anyone can be a curator of access and demonstrates how to approach access in a way that goes beyond protocol and policy It will thus be of interest to students and scholars engaged in the study of museums art history and visual culture disability culture and communication      *The Rotarian* ,2008-07 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine      **Animals and Ourselves** Kathy Merlock Jackson,Kathy Shepherd Stolley,Lisa Lyon Payne,2020-09-25 The relationship between humans and animals has always been strong symbiotic and complicated Animals real and fictional have been a mainstay in the arts and entertainment figuring prominently in literature film television social media and live performances Increasingly though people are anthropomorphizing animals assigning them humanoid roles tasks and identities At the same time humans such as members of the furry culture or college mascots find pleasure in adopting animal identities and characteristics This book is the first of its kind to explore these growing phenomena across media The contributors to this collection represent various disciplines to include the arts humanities social sciences and healthcare Their essays demonstrate the various ways that human and animal lives are intertwined and constantly evolving      *Shareology* Bryan Kramer,2015-07-07 USA Today Bestseller A top social media strategist explores how human connection drives success Technology continues to evolve and make our lives busier and more complicated but it can never replace true human connection our fundamental need to share information stories and emotions Shareology explores the history art and science of sharing and why sharing gives us a unique competitive advantage as individuals and brands For entrepreneurs and marketers who want to make their content more valuable and shareable and for individuals who want to grow their personal brand Fortune 500 consultant and popular TED speaker Bryan Kramer offers wisdom worth sharing plus contributions from experts and business leaders on a variety of topics Shareology covers Sharing in the Human Economy The Importance of Context The Human Business Movement Sharing A Sensory Experience Timing Is Everything Redefining Influencers Inside and Out Connections and Conversations Creating Shared Experiences What Makes Stuff Worth Sharing Brands on Sharing The Sharing Future What s Next
