Novel Cli Fi Novel:

Cli-fi Axel Goodbody, Adeline Johns-Putra, 2018 Proto Climate Change Fiction Speculative future fiction dystopian and post apocalyptic narratives Realist narratives set in the present and near future Thriller crime conspiracy social satire Children s film and young adult novels Literary modernism Notes on Contributors **The Routledge Anthology of Climate Fiction** Bill Gillard, 2024-11-26 The Routledge Anthology of Climate Fiction brings together key works from the Bible to the twentieth century in an accessible resource for students and teachers alike With a robust variety of works including H G Wells Clare Winger Harris H P Lovecraft Leslie F Stone and Arthur Conan Doyle The Routledge Anthology of Climate Fiction offers vital new perspectives and critical introductions all the way back to humanity s earliest surviving literary texts Climate Fiction: Ecological Dimensions Ananya Mukherjee, Tanmoy Baghira, 2025-06-15 Climate Fiction Ecological Dimensions offers an introspective gaze into intersections of literature film and ecology to recognise how fiction mediates the Anthropocene Employing postcolonial and intersectional lenses this volume will interrogate the historical legacies of colonialism that have intensified ecological degradation The contributors in this volume not only observe the Anthropocene as a narrative but also assess its literary conventions to highlight its inherently fictional framework that shape its representation in literature This volume will engage with the current developments in this field and will try to diversify various other issues Apocalyptic Visions in the Anthropocene and the Rise of Climate Fiction Kübra Baysal, 2021-08-10 With the increasing interest of pop culture and academia towards environmental issues which has simultaneously given rise to fiction and artworks dealing with interdisciplinary issues climate change is an undeniable reality of our time In accordance with the severe environmental degradation and health crises today including the COVID 19 pandemic human beings are awakening to this reality through climate fiction cli fi which depicts ways to deal with the anthropogenic transformations on Earth through apocalyptic worlds as displayed in works of literature media and art Appealing to a wide range of readers from NGOs to students this book fills a gap in the fields of literature media and art and sheds light on the inevitable interconnection of humankind with the nonhuman environment through effective descriptions of associable conditions in the works of climate fiction **Cli-Fi and Class** Debra J. Rosenthal, Jason de Lara Molesky, 2023-10-09 Since its emergence in the late twentieth century climate fiction or cli fi has concerned itself as much with economic injustice and popular revolt as with rising seas and soaring temperatures Indeed with its insistent focus on redressing social disparities cli fi might reasonably be classified as a form of protest literature As environmental crises escalate and inequality intensifies literary writers and scholars alike have increasingly scrutinized the dual exploitations of the earth s ecosystems and the socioeconomically disadvantaged Cli Fi and Class focuses on the representation of class dynamics in climate change narratives With fifteen essays on the intersection of the economic and the ecological addressing works ranging from the novels of Joseph Conrad Cormac McCarthy and Octavia Butler to the film Black Panther and the Broadway musical Hadestown this collection unpacks the complex ways economic exploitation

impacts planetary well being and the ways climatic change shapes those inequities in turn The Cambridge Companion to Environmental Humanities Jeffrey Cohen, Stephanie Foote, 2021-09-02 Offers a comprehensive introduction to the environmental humanities It addresses the 21st century recognition of an environmental crisis **Understanding Public Debates** Jens Martin Gurr, 2024-06-20 By historicizing and contextualizing them through readings of carefully selected literary texts literary studies can contribute to understanding and rationalizing key debates waged in many pluralist societies today whether on different conceptions of liberty identity politics historical commemoration challenges of globalization or responses to climate change Understanding Public Debates presents case studies including Milton's Paradise Lost P B Shelley's 1820 Reform essay Philip Roth's The Human Stain the songwriting of Neil Young and Edward Young's 1720s Sea Odes recent climate fiction as well as non literary conflict narratives Rather than mining texts for arguments for or against certain positions this book is interested in how texts stage these debates by means of multiple perspectives narrative situations or ambiguities By suggesting how educators might use literary texts as conversation starters for more rational debates the volume also contributes to Public Literary Studies Three important fields are here brought together 1 the study of societal debates and conflicts and the ways in which they challenge pluralist societies 2 explorations of the societal functions of literature and of non literary narratives and 3 discussions of the role and functions of literary studies The book ends with ten crisp theses on how literary studies can contribute to understanding and rationalizing such conflictive debates

The Routledge Handbook of Ecofeminism and Literature Douglas A. Vakoch, 2022-09-19 The Routledge Handbook of Ecofeminism and Literature explores the interplay between the domination of nature and the oppression of women as well as liberatory alternatives bringing together essays from leading academics in the field to facilitate cutting edge critical readings of literature Covering the main theoretical approaches and key literary genres of the area this volume includes Examination of ecofeminism through the literatures of a diverse sampling of languages including Hindi Chinese Arabic and Spanish native speakers of Tamil Vietnamese Turkish Slovene and Icelandic Analysis of core issues and topics offering innovative approaches to interpreting literature including activism animal studies cultural studies disability gender essentialism hegemonic masculinity intersectionality material ecocriticism postcolonialism posthumanism postmodernism race and sentimental ecology Surveys key periods and genres of ecofeminism and literary criticism including chapters on Gothic Romantic and Victorian literatures children and young adult literature mystery and detective fictions including interconnected genres of climate fiction science fiction and fantasy and distinctive perspectives provided by travel writing autobiography and poetry This collection explores how each of ecofeminism's core concerns can foster a more emancipatory literary theory and criticism now and in the future This comprehensive volume will be of great interest to scholars and students of literature ecofeminism ecocriticism gender studies and the environmental humanities *Climate Fiction and Cultural Analysis* Gregers Andersen, 2019-09-25 Climate Fiction and Cultural Analysis argues that the popularity of the term

climate fiction has paradoxically exhausted the term's descriptive power and that it has developed into a black box containing all kinds of fictions which depict climatic events and has consequently lost its true significance. Aware of the prospect of ecological collapse as well as our apparent inability to avert it, we face geophysical changes of drastic proportions that severely challenge our ability to imagine the consequences. This book argues that this crisis of imagination can be partly relieved by climate fiction which may help us comprehend the potential impact of the crisis we are facing. Strictly assigning climate fiction to fictions that incorporate the climatological paradigm of anthropogenic global warming into their plots, this book sets out to salvage the term's speculative quality. It argues that climate fiction should be regarded as no less than a vital supplement to climate science because climate fiction makes visible and conceivable future modes of existence within worlds not only deemed likely by science but which are scientifically anticipated. Focusing primarily on English and German language fictions, *Climate Fiction and Cultural Analysis* shows how Western climate fiction sketches various affective and cognitive relations to the world in its utilization of a small number of recurring imaginaries or imagination forms. This book will be of great interest to students and scholars of ecocriticism, the environmental humanities, and literary and culture studies more generally.

The Routledge Introduction to Canadian Crime Fiction Pamela Bedore, 2024-02-27

Who are the most important Canadian crime and detective writers? How do they help represent Canada as a nation? How do they distinguish Canada's approach to questions of crime, detection, and social justice from those of other countries? *The Routledge Introduction to Canadian Crime Fiction* provides a much needed investigation into how crime and detection have been, are, and will be represented within Canada's national literature with an attention to contemporary popular and literary texts. The book draws together a representative set of established Canadian authors who would appear in most courses on Canadian crime and detective fiction while also introducing a few authors less established in the field. Ultimately, the book argues that crime fiction is a space of enormously productive hybridity that offers fresh new approaches to considering questions of national identity, gender, race, sexuality, and even genre.
