

□ The basic assumptions of this thought include three major points.

□ Firstly, wise and well informed decisions can be made by a few carefully selected individuals who have been expressly trained to think in terms of the collective good of the state.

□ Secondly, these few individuals, who possess awesome and unchecked power, will not be corrupted by this power.

□ thirdly, once socially optimal decisions have been made, they can be implemented effectively by loyal, well-trained, and obedient bureaucracies.

Human Interaction, Emerging Technologies and Future Systems V Tareq Ahram, Redha Taiar, 2021-09-09 This book reports on research and developments in human technology interaction. A special emphasis is given to human computer interaction and its implementation for a wide range of purposes such as health care, aerospace, telecommunication and education among others. The human aspects are analyzed in detail. Timely studies on human centered design, wearable technologies, social and affective computing, augmented virtual and mixed reality, simulation, human rehabilitation and biomechanics represent the core of the book. Emerging technology applications in business, security and infrastructure are also critically examined, thus offering a timely, scientifically grounded but also professionally oriented snapshot of the current state of the field. The book gathers contributions presented at the 5th International Conference on Human Interaction and Emerging Technologies (IHET) 2021, August 27-29, 2021, and the 6th International Conference on Human Interaction and Emerging Technologies (IHET) 2021, October 28-30, 2021, held virtually from France. It offers a timely survey and a practice oriented reference guide to researchers and professionals dealing with design, systems engineering and management of the next generation technology and service systems.

OECD Public Governance Reviews Global Trends in Government Innovation 2023 OECD, 2023-05-15 In the face of what has increasingly been referred to as an ongoing permacrisis, governments must cope with and respond to emerging threats while already grappling with longstanding issues such as climate change, digital disruption and low levels of trust. In this context, understanding new approaches and spreading successful ideas has never been more important.
