Twitter Trending S Viral Hit:

Going Viral Karine Nahon, Jeff Hemsley, 2013-11-25 In *Going Viral* Nahon and Hemsley uncover the factors that make things go viral online. They analyze the characteristics of networks that shape virality including the crucial role of gatekeepers who control the flow of information and connect networks to one another. They also explore the role of human attention showing how phenomena like word of mouth bandwagon effects, homophily and interest networks help to explain the patterns of individual behavior that make viral events.

Focus On: 100 Most Popular American Internet Celebrities Wikipedia contributors, **The Conversivity Model** Clo Willaerts, 2011-03-11 Clo Willaerts explains how online conversations can be observed, influenced and transformed into conversions resulting in the kind of return on investment everybody likes: lower costs and higher revenue. Take a look inside the book. Social media has disrupted traditional marketing, advertising and even business models. In fact, traditional marketing is dead. Ordinary people, millions of them, are using social media every day to solve their problems, coping with information overload, finding a new job or even a new boyfriend. Just as importantly, they collect information and opinions before deciding what to spend their money on. The people you used to know as your targeted audience, your consumers or even your prospects are now using Facebook, Twitter, blogs and YouTube to start and join millions of conversations which can be both valuable and trivial. But how can businesses learn to listen into and monitor these conversations without getting a headache? How can they successfully build and maintain a presence which allows them to fish where the fish are? How can they align their business objectives with their social media efforts? And what should they actually do now that social media has irreversibly changed the way that companies do business and hire people? Internet expert Clo Willaerts offers us convincing practical answers to all these questions. Using her Conversivity model and a number of inspiring case studies, she explains how conversations can be observed, influenced and transformed into conversions resulting in the kind of return on investment everybody likes: lower costs and higher revenue.

Producing for TV and New Media Cathrine Kellison, Dustin Morrow, Kacey Morrow, 2013-02-11 This book provides a thorough look at the role of the producer in television and new media. Written for new and aspiring producers, it looks at both the big picture and the essential details of this demanding job. In a series of interviews, seasoned TV and new media producers share their real world professional practices to provide rich insight into the complex billion dollar industries. The third edition features more on the topics of new media and what that encompasses, covering the expansion of the global marketplace of media content. The traditional role of a television producer is transforming into a new media producer and this book provides a roadmap to the key differences and similarities between the two.
