Viral Hit Myth Retelling Novel:

Filterworld Kyle Chayka, 2024-01-23 The story told here is instrumental to your own Jared Lanier Timely erudite important Ayad Akhtar What happens when our cultural and artistic lives are dictated to us by an algorithm What does it mean when shareability supersedes innovation How can we make a choice when the options have been so carefully arranged for us From coffee shops to city grids to TikTok feeds and Netflix homepages the world over algorithmic recommendations prescribe our experiences This network of mathematically determined choices the Filterworld has taken over almost unnoticed as we've grown accustomed to an insipid new normal But to have our tastes behaviours and emotions governed by computers calls the very notion of free will into question Internationally recognized journalist and New Yorker staff writer Kyle Chayka journeys through this ever tightening web woven by algorithms He explores how online and offline spaces alike have been engineered for seamless consumption How the lowest common denominator is promoted at the expense of the complex diverse or challenging How users of technology contend with data driven equations that promise to anticipate their desires but often get them wrong How the Filterworld is determining the very shape of culture itself Chayka skilfully and compellingly traces this creeping machine guided curation that influences not just what culture we consume but what culture is produced In doing so he attempts to answer to the most urgent question currently facing us is personal freedom ever again possible on the Internet Filterworld is a fascinating history of the rise of the algorithm and an important investigation into where it could take us next if we let it

The Video Source Book David J. WEINER, 1990 **The Oxford Handbook of**

Heracles Daniel Ogden, 2021 The Oxford Handbook of Heracles is the first large scale guide to the rich myth cycle of Heracles his Twelve Labors and so much more and to the pervasive impact of the hero upon Greek and Roman culture Presenting in 39 chapters the authoritative work of international experts in a clear and well structured format this volume provides a convenient reference tool for scholars and offers an accessible starting point for students

Money and Marketing in the Art World Henrik Hagtvedt, 2024-10-21 How does the art market choose its winners thereby also deciding what millions of visitors to galleries and museums will view year after year Whereas art historical writing and contemporary commentary tend to highlight the efforts of specific artists this book illustrates how money and marketing in combination with general trends play decisive roles in shaping the art world and in propelling specific artists and artworks to positions of prominence Today perhaps more than ever before the high profile art world is primarily shaped by buyers and those who cater to buyers The actual artists although most visible to the public tend to play a secondary role The time seems particularly ripe for transparency about how the art world works given the growth in the art market media attention on and popular interest in high priced art and controversy surrounding public funding for art and the value of art for contemporary society With a combination of marketplace observations marketing insights and relevant research findings this book contributes to increased transparency while providing thought provoking digressions and anecdotes along the way Money

and Marketing in the Art World offers an accessible analysis of the art market for scholars and graduate students across arts marketing and management as well as for those more broadly interested in art and business *Manatee's Best Friend* Sylvia Liu, 2021-08-03 Perfect for fans of Catherine Hapka a heart warming story about a girl who must find her voice with lots of manatee and dolphin fun along the way Becca Wong Walker may be so shy that most people at school think she doesn't speak at all but why should she care She has more important things to worry about Missy the manatee who visits the dock in Becca's backyard and Becca's only friend hasn't been seen for a long time When Missy finally does return she has a new baby with her Becca wants to be excited but more than ever inconsiderate boaters are speeding through the river putting the lives of Missy and her baby in terrible danger One day Becca spots a dolphin in the river too By bonding over the dolphin and manatees Becca finally starts to make friends at school But when Becca takes a video that goes viral it seems like it will be harder than ever to save the manatees and trying might just tear Becca's new friendships apart **Start a Brand That Builds Itself: The Viral Growth Strategy for Entrepreneurs** Ahmed Musa , 2025-05-21 Listen closely because I'm about to save you years of frustration wasted ad spend and late night what the hell am I doing breakdowns Start a Brand That Builds Itself The Viral Growth Strategy for Entrepreneurs isn't some kumbaya branding nonsense cooked up by a marketing intern with zero skin in the game This is a street smart playbook for building a brand that grows itself like a wildfire in a dry forest pulling in attention customers and cash while your competitors are still fiddling with fonts and logos Inside you'll get The trigger points that make people spread your brand like gossip at a family barbecue How to inject identity level loyalty into your audience so they market for you The viral content formula that multiplies your visibility without spending a dime Why most branding experts are full of hot air and what actually works in the trenches The one thing you must do to spark obsession not just interest This ain't about looking pretty It's about becoming unforgettable If you're an entrepreneur who's sick of chasing customers and wants to flip the script where they chase you then grab this book shut off the noise and get to work Because real brands don't beg They build momentum And momentum is damn near unstoppable *How the Movies Saved Christmas* William D. Crump, 2017-05-11 Santa Claus is in trouble Who will save Christmas This A to Z guide to holiday films television movies and series specials provides cast credits production information and commentary for 228 cinema Christmases that were almost ruined by villains monsters spirits secularism greed misanthropy or elf error but were saved by helpful animals magic snowmen selfless children or compassionate understanding Reviews and references are included

Player vs. Monster Jaroslav Svelch, 2023-02-07 An ode to the gruesome game characters we love to beat from the monsters of D&D to the mutants of The Last of Us and what they tell us about ourselves Since the early days of video games monsters have played pivotal roles as dangers to be avoided level bosses to be defeated or targets to be destroyed for extra points But why is the figure of the monster so important in gaming and how have video games come to shape our culture's conceptions of monstrosity To answer these questions Player vs Monster explores the past half century of monsters in games

from the dragons of early tabletop role playing games and the pixelated aliens of Space Invaders to the malformed mutants of The Last of Us and the bizarre beasts of Bloodborne and reveals the common threads among them Covering examples from aliens to zombies Jaroslav velch explores the art of monster design and traces its influences from mythology visual arts popular culture and tabletop role playing games At the same time he shows that video games follow the Cold War era notion of clearly defined calculable enemies portraying monsters as figures that are irredeemably evil yet invariably vulnerable to defeat He explains the appeal of such simplistic video game monsters but also explores how the medium could evolve to present more nuanced depictions of monstrosity

Reference Quarterly ,1989 Religion and Artificial Intelligence Beth Singler,2024-10-31 Artificial intelligence AI is rarely out of the news or the public imagination Images of red eyed Terminators illustrate press accounts of incremental advances in medical diagnosis facial recognition natural language processing and robotics Such advances are transforming society through measurable impacts on people s decisions and opportunities Religion and Artificial Intelligence An Introduction explores an emerging field with a religious studies approach drawing on cultural and digital anthropological methods to demonstrate the entanglements of religion and AI our imaginaries of these objects and our ideas about their utopian or dystopian futures It addresses key topics including the following What AI is and is not How religions are reacting to AI with examples of rejection adoption and adaptation How established religions understand creation and place human like AI within that How overtly secular and even new atheist groups understand AI as a tool for liberation from human evolution and religion Religious visions of superintelligent AI This engaging book is essential for anyone considering the relationship between religion science and technology and interested in the questions raised by transhumanism posthumanism and new religious movements
