Blueprints and Blood Hugh D. Hudson, Jr., 2015-03-08 Analyzing totalitarianism from below in a crucial area of Soviet culture Hugh Hudson shows how Stalinist forces within the architectural community destroyed an avant garde movement of urban planners and architects who attempted to create a more humane built environment for the Soviet people Through a study of the ideas and constructions of these visionary reformers Hudson explores their efforts to build new forms of housing and settlements designed to free the residents especially women from drudgery allowing them to participate in creative work and to enjoy the songs of larks Resolving to obliterate this movement of human liberation Stalinists in the field of architecture unleashed a little terror from below prior to Stalin s Great Terror Using formerly secret Party archives made available by perestroika Hudson finds in the rediscovered theoretical work of the avant garde architects a new understanding of their aims He shows for instance how they saw the necessity of bringing elite desires for a transformed world into harmony with the people s wish to preserve national culture Such goals brought their often divided movement into conflict with the Stalinists especially on the subject of collectivization Hudson s provocative

work offers evidence that in spite of the ultimate success of the Stalinists the Bolshevik Revolution was not monolithic at one time it offered real architectural and human alternatives to the Terror Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Blueprints for a Black Federal Theatre Rena Fraden,1996-06-28 In the 1930s the Work Progress Administration funded a massive Federal Theatre Project in America s major urban centres presenting hundreds of productions some of the most popular and memorable of which were produced in the highly controversial and avant garde Negro Units This experiment in government supported culture brought to the forefront one of the central problems in American democratic culture the representation of racial difference Those in the profession quickly discovered inescapable ideological responsibilities attending any sort of show whether apparently entertaining or political in nature Exploring the liberal idealism of the thirties and the critical debates in black journals over the role of an African American theatre Fraden also looks at the obstacles facing black playwrights audiences and actors in a changing milieu
