Science

Age 7+

Family game for holiday

Buzz wire is a steady hand game that is well known to many as a table top amusement. This is a well-known board game that requires a steady hand and a knowledge of basic electric circuit.

What you'll need:

- 0.2cm thick wire
- Buzzer and/or LED
- Switch
- 9v battery and 10K resistor
- 9v battery clip (make thing easier)
- electric tape
- Some wire for connections

Key Concepts

- Resistance
- Circuit
- Buzzer

Questions you may ask

1. What happens when you touch the loop on the wire?
2. Turn switch on/off when you play the game. What happens? why?

Scientific Facts

See next page

Instructions

- sand and fold a thick wire in the shape that you want.
- act battery, resistor, LED and buzzer as in the picture.
- create a circular stick as shown below. (The smaller the circle, the more difficult the game will be)

- connect the ground wire to the stick and connect it with electrical tape or duct tape. This is for safety and so that it's easier to hold.

Out-of-School-Time STEM Programs for Females Lynda R. Wiest, Jafeth E. Sanchez, Heather Glynn Crawford?Ferre, 2017-06-01 Science technology engineering and mathematics STEM disciplines play a pivotal role in societal progress and economic prosperity in addition to enhancing individual lives However U S students lack strong STEM performance in an international context The pool of STEM proficient workers is thus insufficient to fuel the nation with females being one group that is noticeably absent Out of school time OST programs which are on the rise are increasingly suggested as a way to support and encourage females in STEM Data collected from participants in OST programs have shown improved achievement interest and confidence in STEM as well as greater awareness of STEM role models and careers Out of School Time STEM Programs for Females Implications for Research and Practice features seven OST STEM programs for females from across the United States that run one week to one year in length In this book the chapter authors describe their programs the effectiveness of those programs and practical implications of their program evaluation data This book is the first of its kind to offer researchers educators school administrators policy makers and others detailed insight into the promise and practice of out of school time STEM programs for females **The Business School Buzz Book** Carolyn C. Wise, Stephanie Hauser, 2007 In this updated guide Vault publishes the entire surveys of current students and alumni at more than 100 top business schools Each 4 to 5 page entry is composed almost entirely of insider comments from students and alumni Each school profile features surveys of about 10 students or alumni These narratives provide applicants with detailed and balanced perspectives and insider information on admissions and employment prospects which is lacking in other business school guides **The College Buzz Book** , 2006-03-23 In this new edition Vault publishes the entire surveys of current students and alumni at more than 300 top undergraduate institutions as well as the schools responses to the comments Each 4 to 5 page entry is composed of insider comments from students and alumni as well as the schools responses to the comments *Making Sense of the Learning Turn* Anders Örtengren, 2024-05-09 From learning toy and learning society to learning city and learning organization what is meant by learning The main focus of this volume is to increase our understanding of the learning turn referring in this book to the frequent occurrence and usage of terms in the last few decades where the word learning is the premodifier The authors also offer insights into the use of the word learning as a premodifier in the future and discuss what if anything may replace it such as knowledge as in knowledge management and smart as in smart city An extensive range of academic disciplines are covered including political science economics human geography philosophy linguistics higher education working life science management and organization and marketing While a single overall unified conclusion is not provided Making Sense of the Learning Turn presents a variety of voices and perspectives Some contributors are critical towards the learning turn explaining it in terms of fashion following manipulation and seduction Others interpret the learning turn more lightly or suggest a more collective form of learning as an alternative
