

□ The basic assumptions of this thought include three major points.

□ Firstly, wise and well informed decisions can be made by a few carefully selected individuals who have been expressly trained to think in terms of the collective good of the state.

□ Secondly, these few individuals, who possess awesome and unchecked power, will not be corrupted by this power.

□ thirdly, once socially optimal decisions have been made, they can be implemented effectively by loyal, well-trained, and obedient bureaucracies.

Human Interaction, Emerging Technologies and Future Systems V Tareq Ahram, Redha Taiar, 2021-09-09 This book reports on research and developments in human technology interaction. A special emphasis is given to human computer interaction and its implementation for a wide range of purposes such as health care, aerospace, telecommunication and education among others. The human aspects are analyzed in detail. Timely studies on human centered design, wearable technologies, social and affective computing, augmented virtual and mixed reality simulation, human rehabilitation and biomechanics represent the core of the book. Emerging technology applications in business security and infrastructure are also critically examined, thus offering a timely scientifically grounded but also professionally oriented snapshot of the current state of the field. The book gathers contributions presented at the 5th International Conference on Human Interaction and Emerging Technologies (IHET) 2021, August 27-29, 2021, and the 6th International Conference on Human Interaction and Emerging Technologies Future Systems (IHET FS) 2021, October 28-30, 2021, held virtually from France. It offers a timely survey and a practice oriented reference guide to researchers and professionals dealing with design systems engineering and management of the next generation technology and service systems.
