Letkemann, 2025-12-02 Speculative Architectures after Minoritarian Futurisms is a work of architectural theory which understands architecture as a practice of speculation analogous to science fiction While it might seem immediately obvious especially given the discipline s legacy of fantastical invention and commitment to the future this book argues that this hypothetical conjunction offers a highly sophisticated critical perspective on the discipline arguing that the only way to deal with the complex challenges of the present is through processes of speculation and ethical commitment to imagining futures evinced in minoritarian futurisms This book reads architecture from the perspective of the recent florescence of futurisms from Afro futurism to xeno feminism with an attention to how they produce a different image of architecture In understanding architecture as speculative practice the book also suggests understanding the architect by analogy to the author of science fiction Learning from queer and feminist perspectives this method of science fictioning refuses to take the terms now defining the discipline as totalising and immutable and investigates the unique subjectivities positions and responsibilities that might be imagined as the architect to come This book will be of interest to researchers and students of architectural theory science fiction studies design futures and global futurisms Resources in Education, 1996-07 **Open Admissions** Danica Savonick, 2024-07-05 In Open Admissions Danica Savonick traces the largely untold story of the teaching experience of Toni Cade Bambara June Jordan Audre Lorde and Adrienne Rich at the City University of New York cuny in the late 1960s and early 1970s This period during which cuny guaranteed tuition free admission to every city high school graduate was one of the most controversial in US educational history Analyzing their archival teaching materials syllabi lesson plans and assignments alongside their published work Savonick reveals how these renowned writers were also transformative educators who developed creative methods of teaching their students to navigate and change the world In fact many of their methods such as student led courses collaborative public projects and the publication of student writing anticipated the kinds of student centered and antiracist

pedagogies that have become popular in recent years In addition to recovering the pedagogical legacy of these writers Savonick shows how teaching in cuny s free and open classrooms fundamentally altered their writing and with it the course of American literature and feminist criticism

Freeman Marshall,2023-02-28 Iconic as a novelist and popular cultural figure Zora Neale Hurston remains underappreciated as an anthropologist Is it inevitable that Hurston s literary authority should eclipse her anthropological authority If not what socio cultural and institutional values and processes shape the different ways we read her work Jennifer L Freeman Marshall considers the polar receptions to Hurston s two areas of achievement by examining the critical response to her work across both fields Drawing on a wide range of readings Freeman Marshall explores Hurston s popular appeal as iconography her elevation into the literary canon her concurrent marginalization in anthropology despite her significant contributions and her place within constructions of Black feminist literary traditions Perceptive and original Ain t I an Anthropologist is an overdue reassessment of Zora Neale Hurston s place in American cultural and intellectual life
