Smartphone Operating System Concepts With Symbian OS A Tutorial Guide:

Smartphone Operating System Concepts with Symbian OS Michael J. Jipping, 2007-04-30 Smartphone Operating System Concepts with Symbian OS uses Symbian OS as a vehicle to discuss operating system concepts as they are applied to mobile operating systems. It is this focus that makes this tutorial guide both invaluable and extremely relevant for today's student. In addition to presenting and discussing operating system concepts, this book also includes exercises that compare and contrast Symbian OS, Unix, Linux, and Microsoft Windows. These assignments can be worked on in a classroom laboratory or in a student's own time. The book is replete with examples both conceptual and applied to handhelds as well as summaries at the end of each chapter. Problems the students can do as homework, experiment-oriented exercises, and questions for students to complete on a handheld device. A reading list, bibliography, and a list of sources for handheld software. It also contains a series of online laboratories based on the software developed for Symbian OS devices. Students can perform these labs anywhere and can use printing and e-mail facilities to construct lab write-ups and hand in assignments. Students for the first time will be taught Symbian OS concepts so that they can start developing smartphone applications and become part of the mass market revolution.

Unlike other books, it addresses maintaining a smart HRI from three dimensions: namely, hardware, cyberware, and hybrid asset management, covering problems encountered in each through a wide variety of representative examples and elaborated illustrations. Further, the diverse mathematical models and intelligent systems constructions make the book highly practical. It enables readers interested in maintenance robotics and intelligent systems but perplexed by myriads of interrelated issues to grasp basic methodologies. At the same time, the referenced literature can be used as a roadmap for conducting deeper researches.
